

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

- AIM:a) Create slope charts and lollipop charts
b) Design waterfall charts
c) Build sparklines for trend analysis
d) Implement sheet swapping for dynamic dashboards
e) Create custom geographic territories
f) Use background images in dashboards
g) Apply animation and transparency techniques
- A: Create Slope Charts and Lollipop Charts
1. Create a Slope Chart (Year-over-Year Progression)
- Step 1: Set Up the Base Worksheet

ENG IN

10:36 27-08-2026

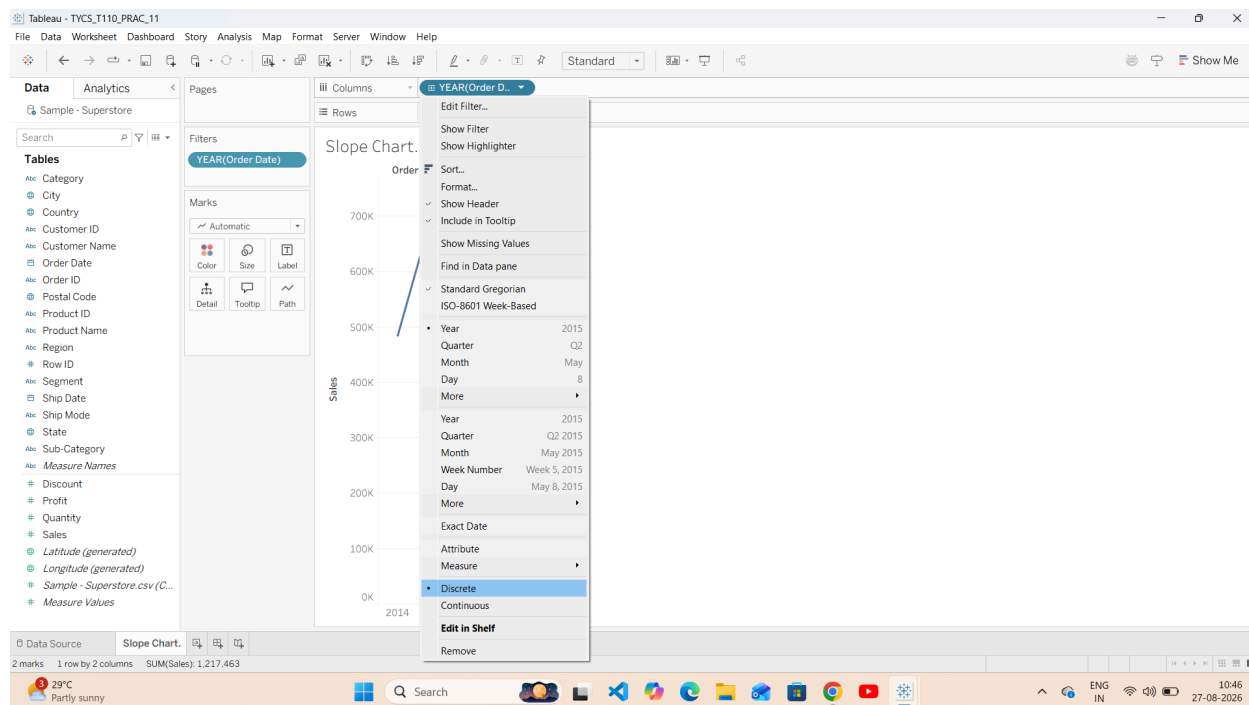

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

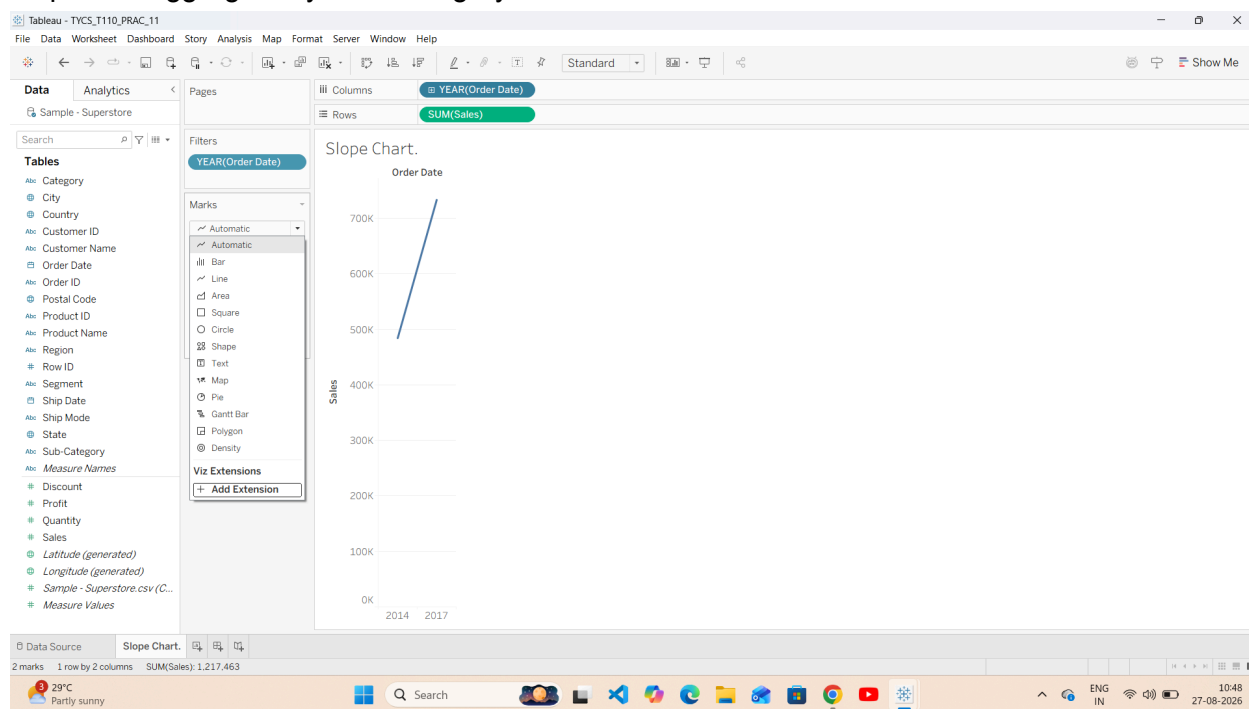

Step 2: Filter to Baseline & Comparison Years

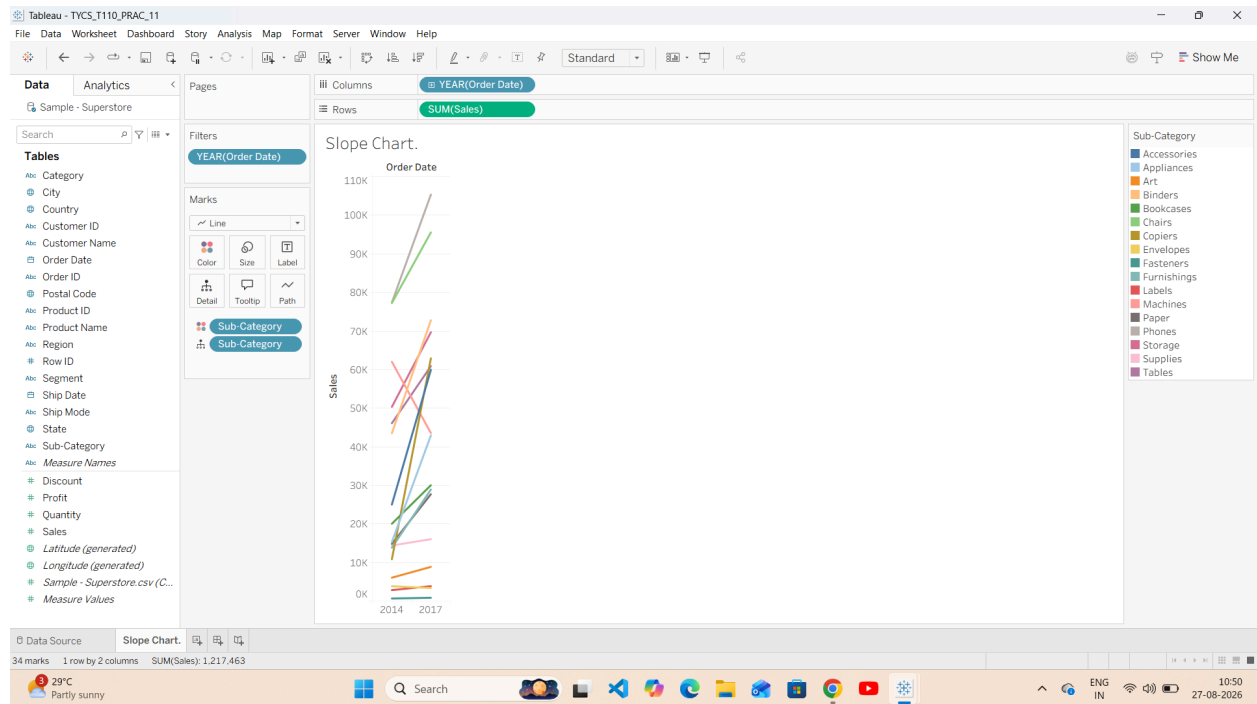

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

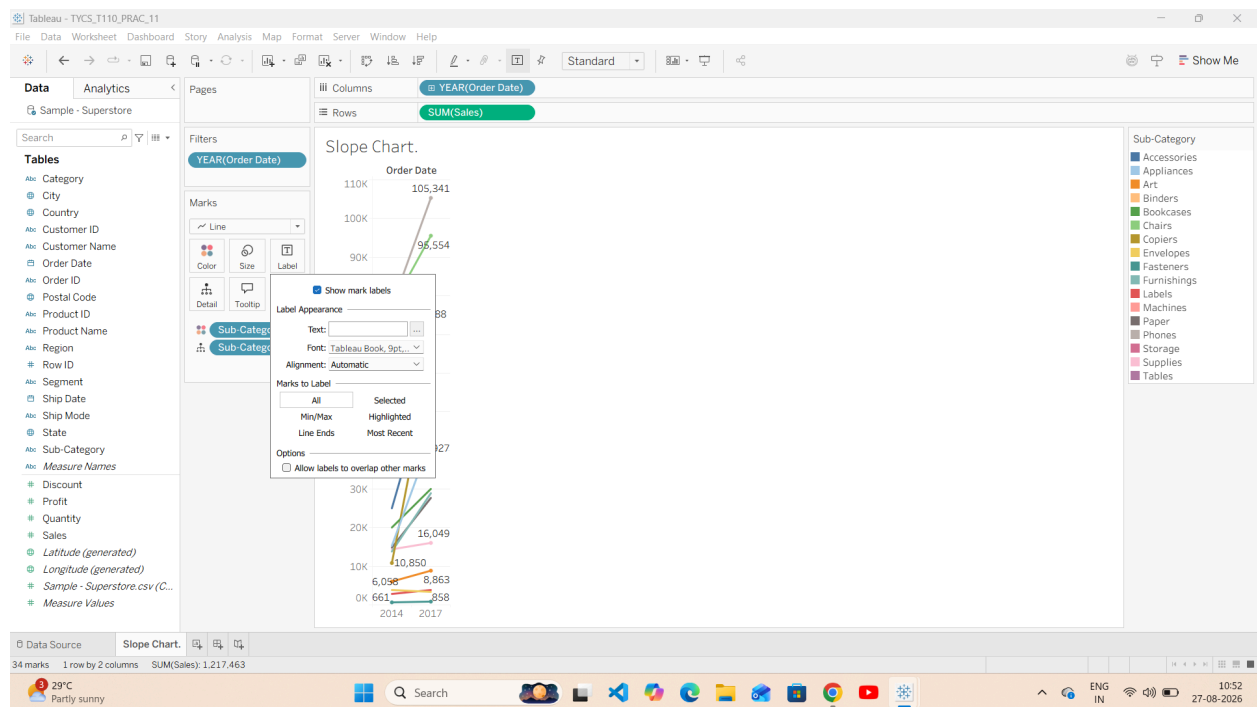

Step 3: Disaggregate by Sub-Category

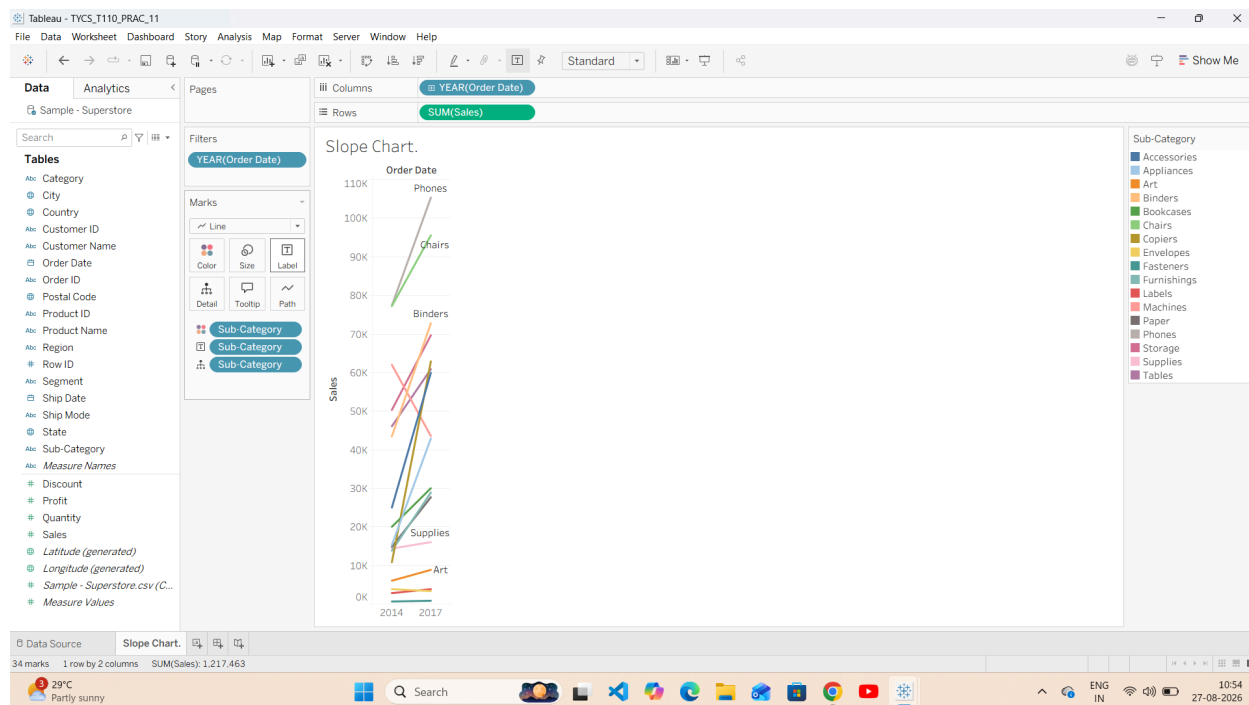

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

Step 4: Format Labels and Endpoints

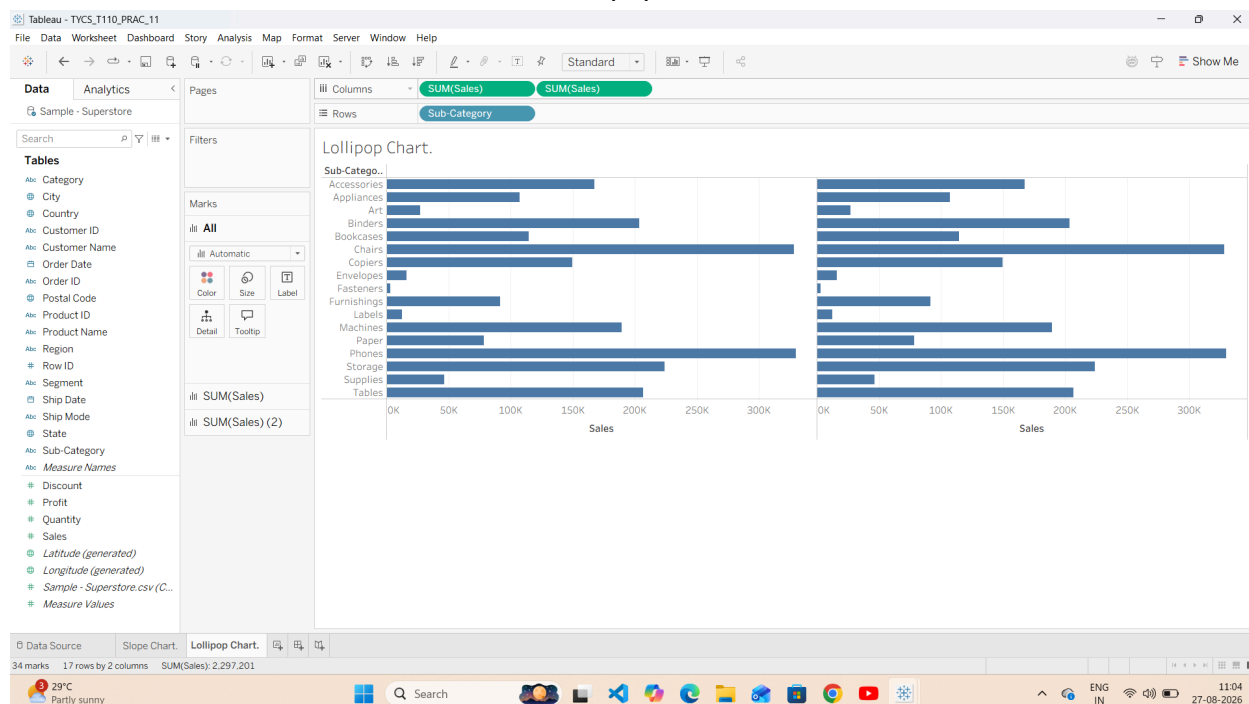

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

2. Create a Lollipop Chart (Sales with Profit Highlighting)

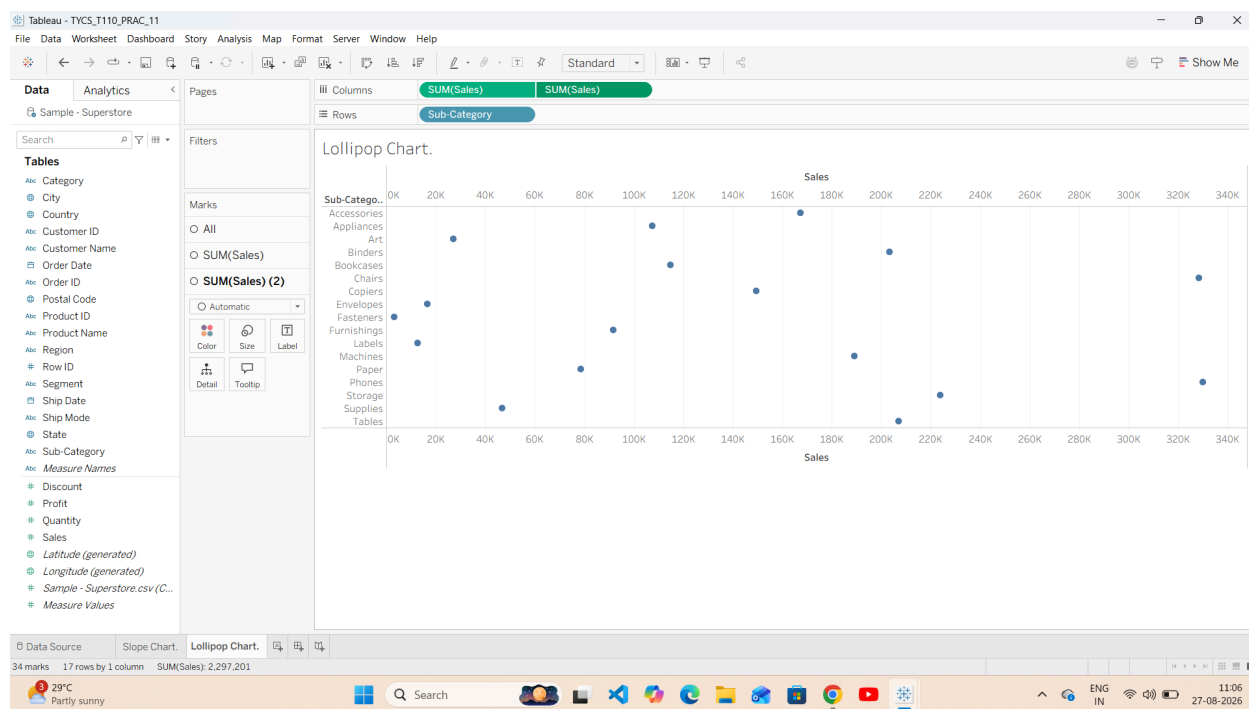

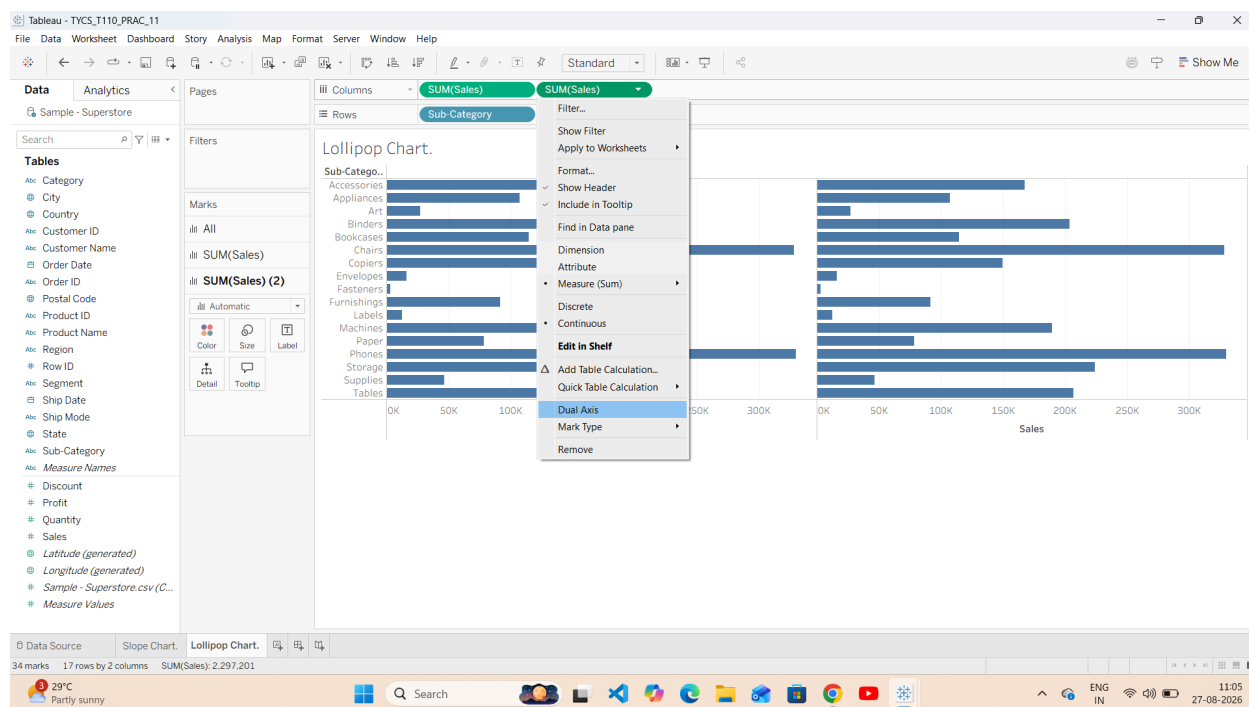

Step 1: Set Up the Base Worksheet

1. Create a new worksheet and rename it: Lollipop Chart

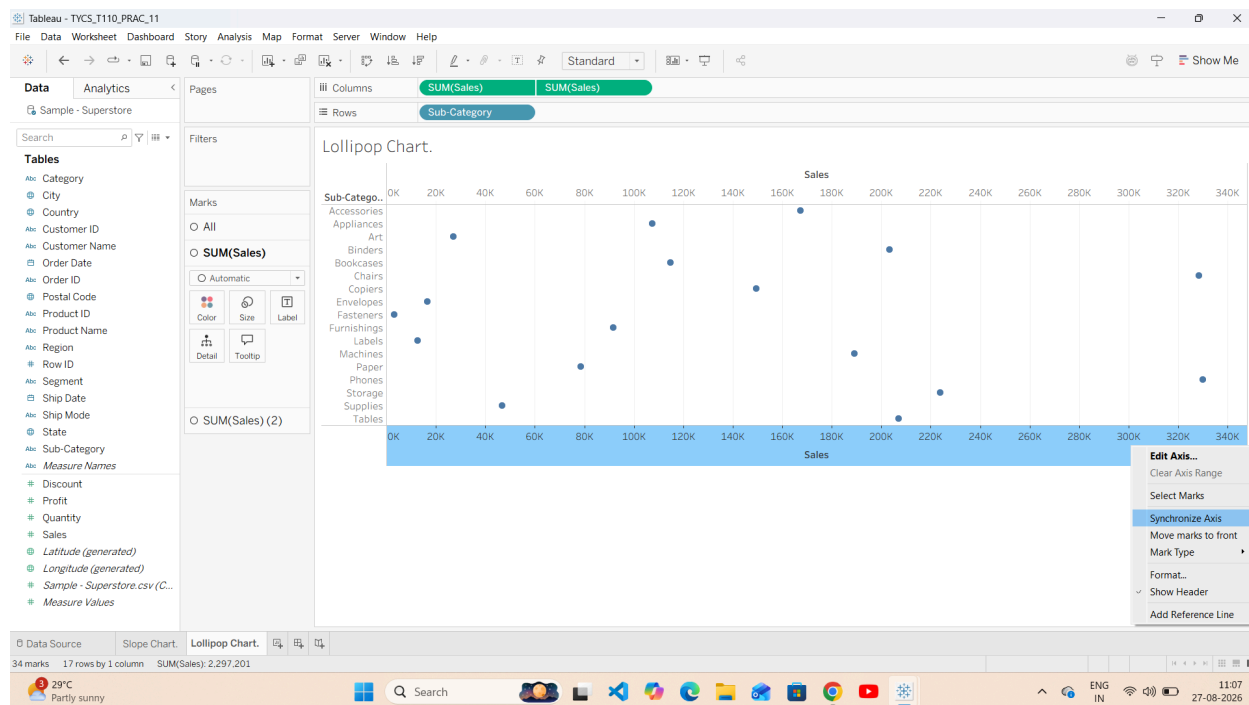

Step 2: Convert to Dual Axis

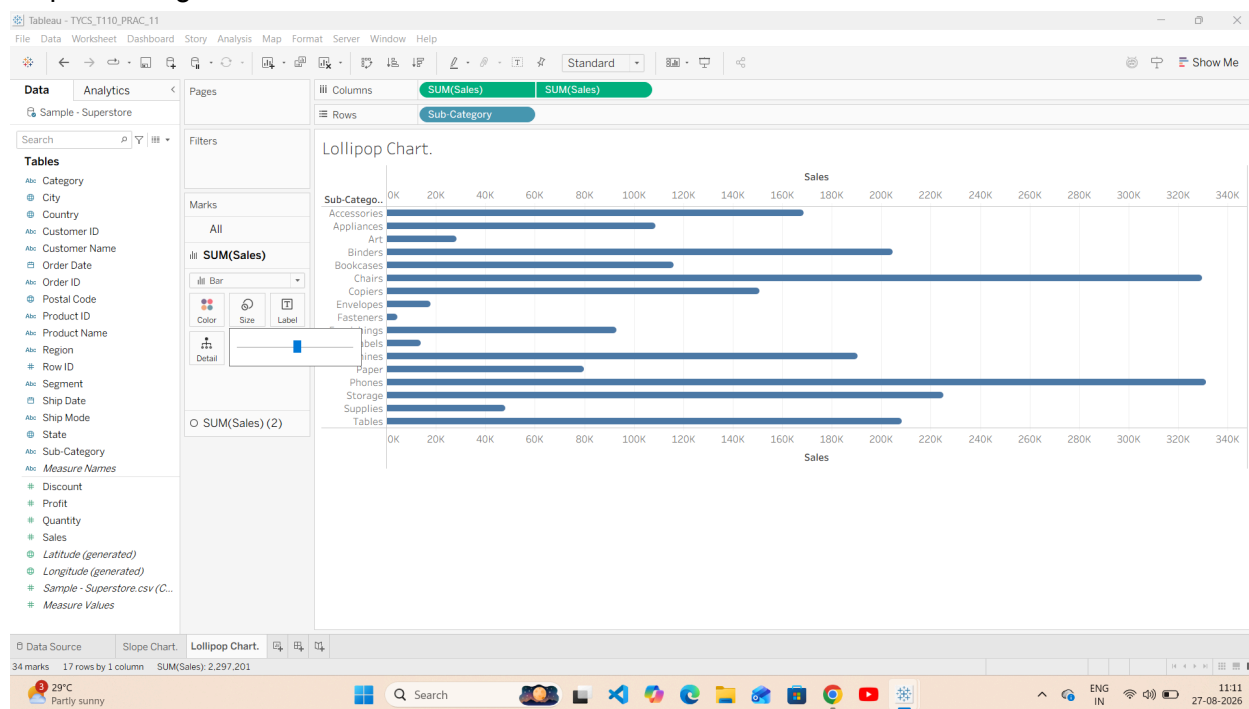

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

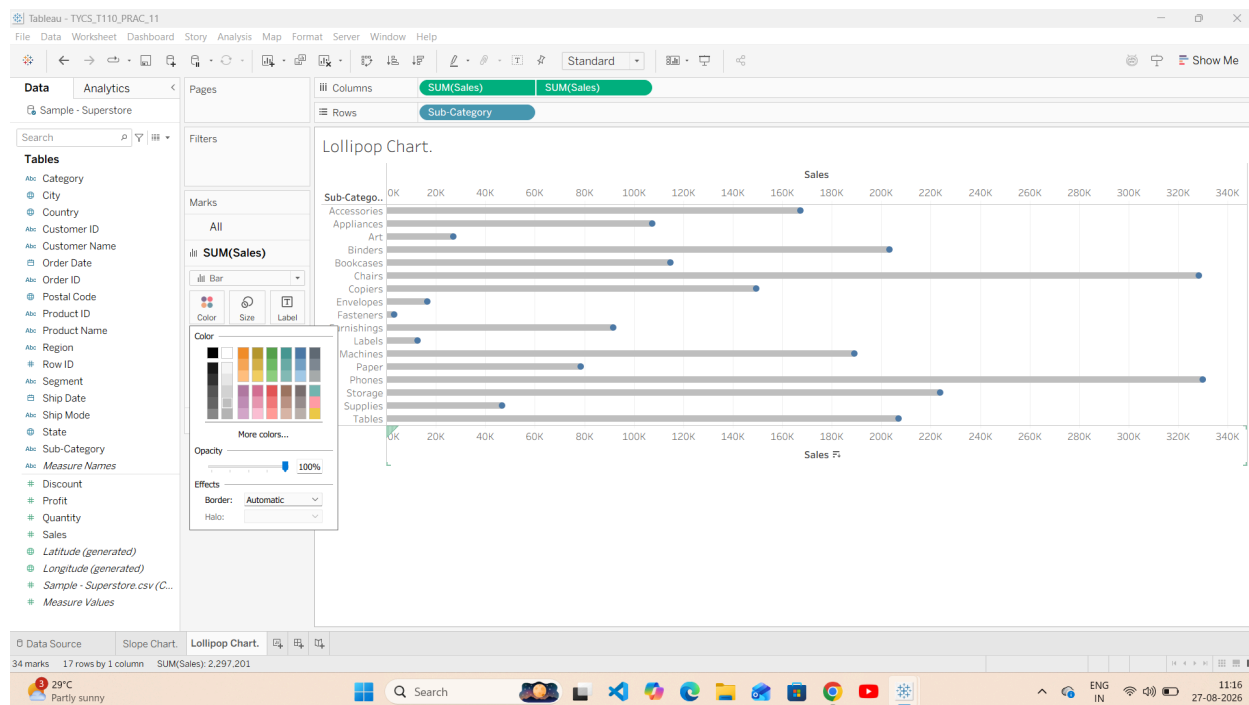

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

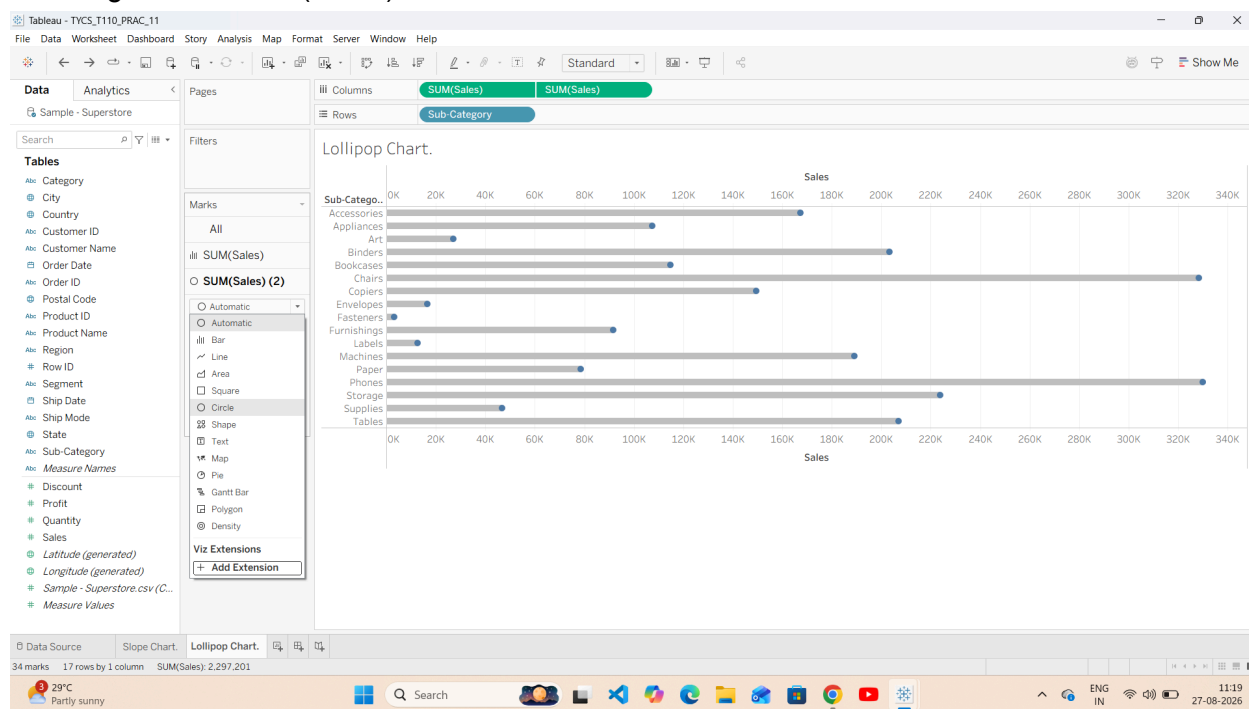

Step 3: Configure the Marks Cards

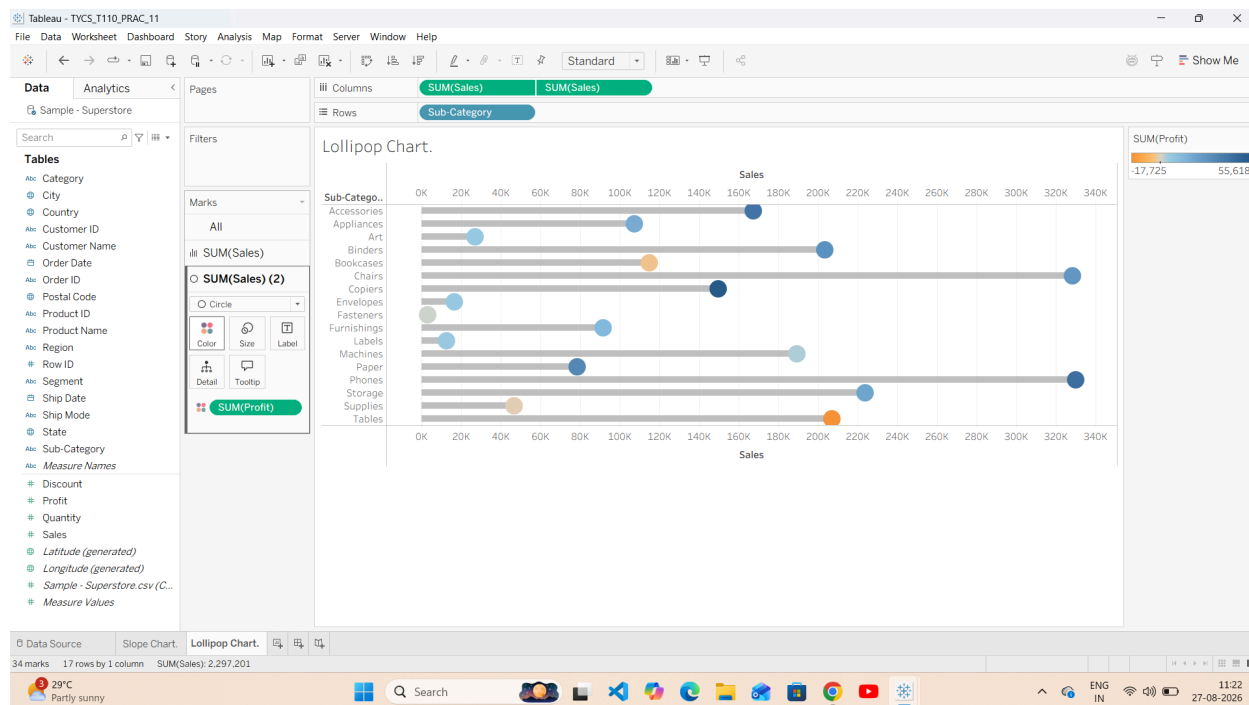

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

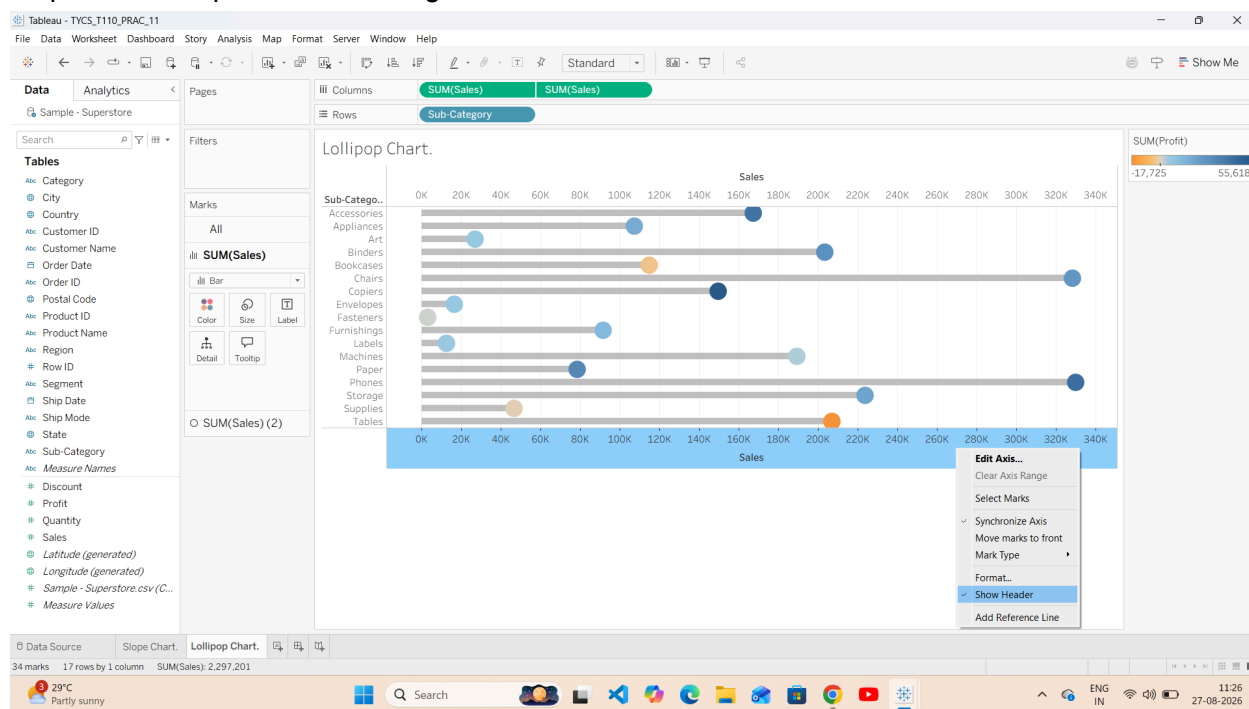

2. Configure the Head (Circle):

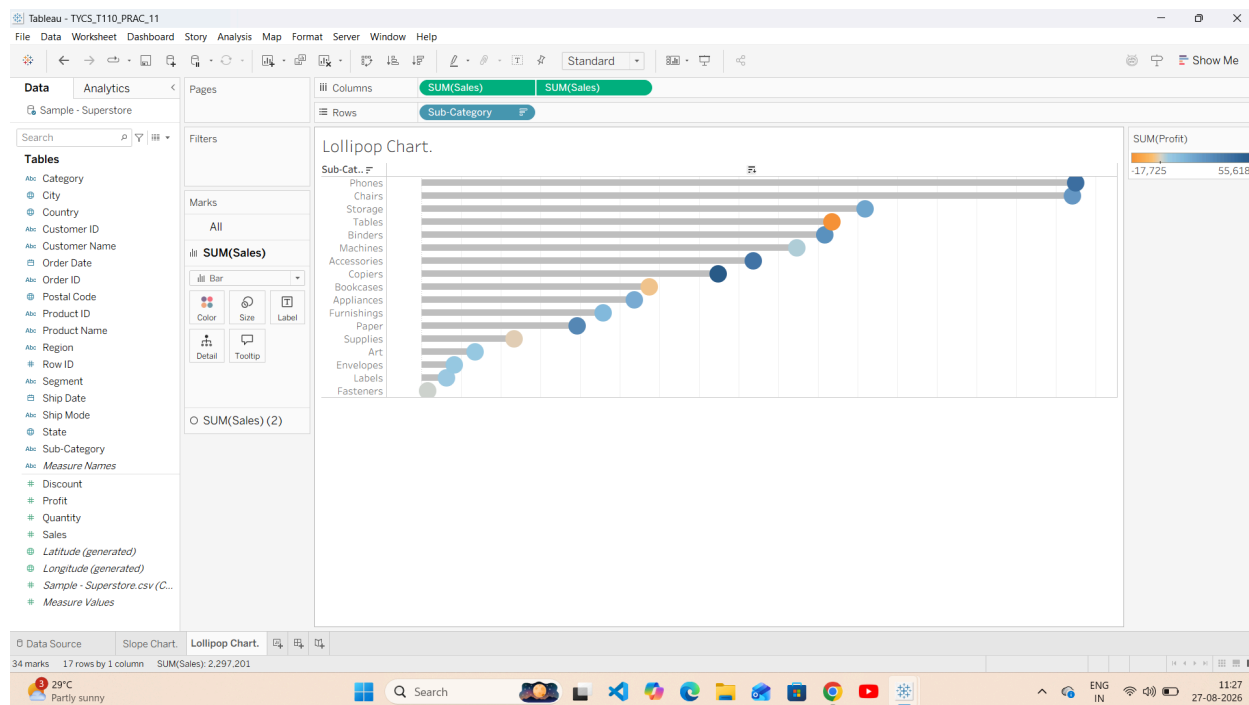

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

Step 4: Clean Up Axis Formatting

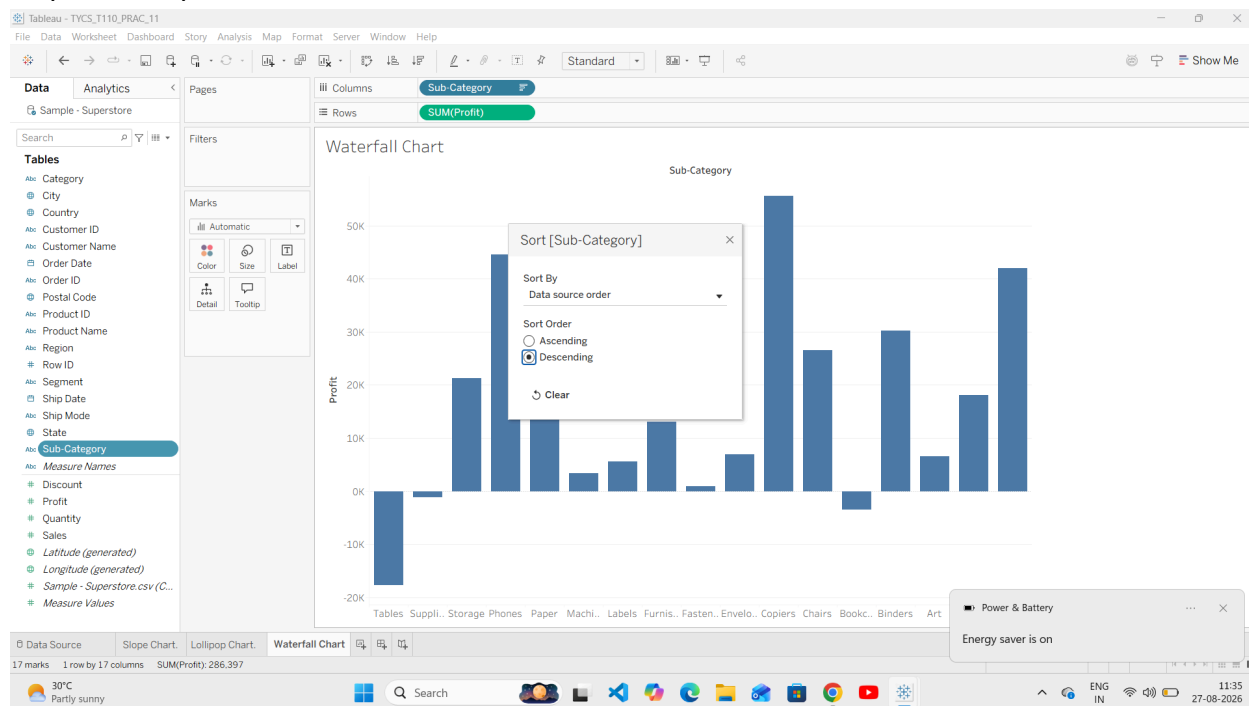

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

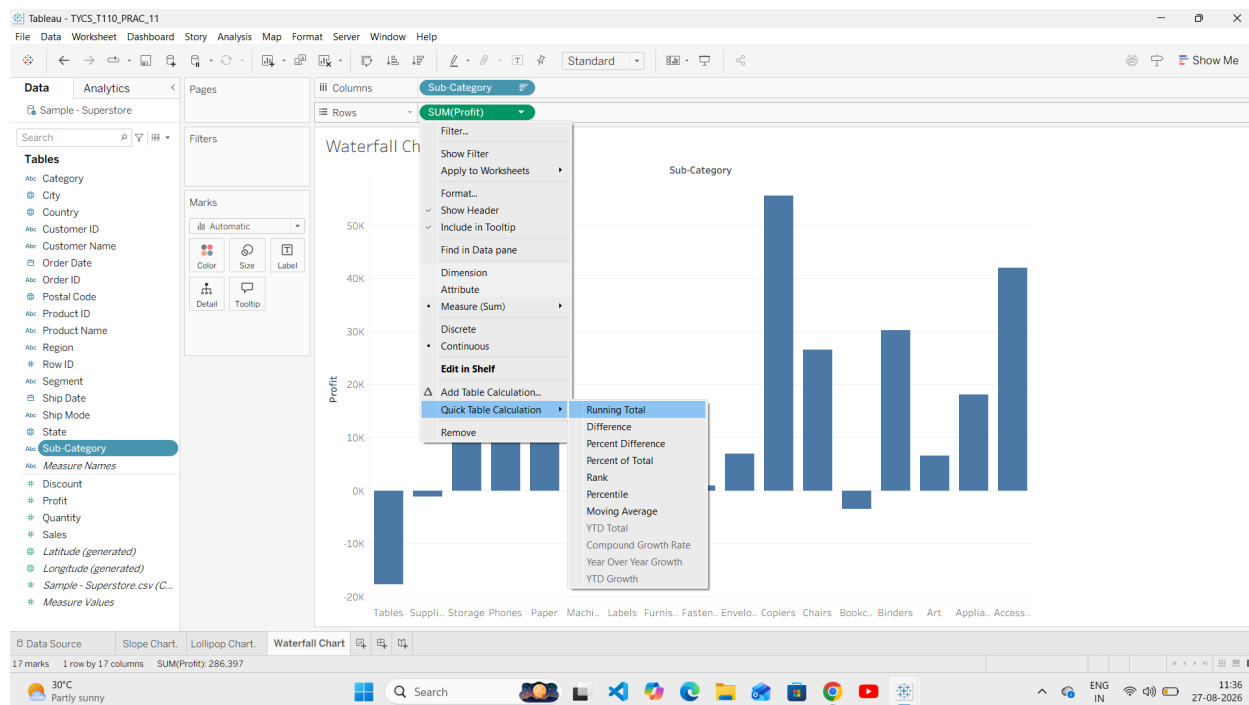

B: Design Waterfall Charts

Step 1: Set Up the Base Worksheet

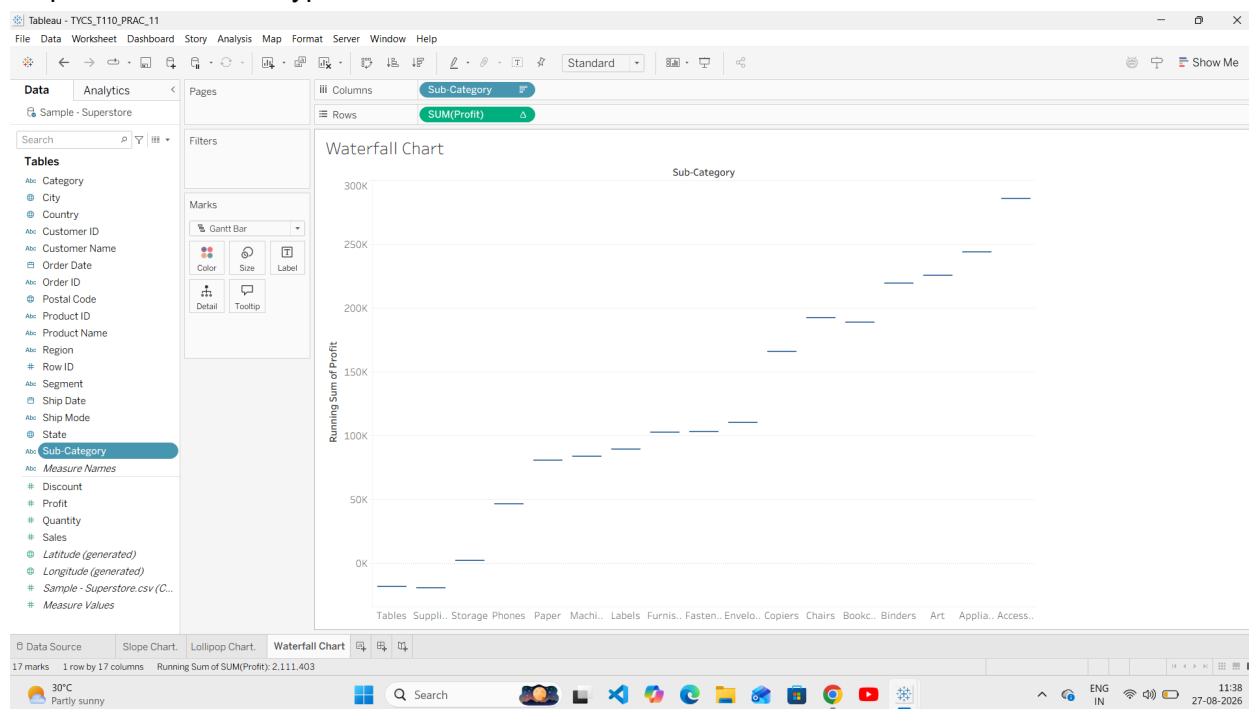

Step 2: Apply Running Total Table Calculation

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

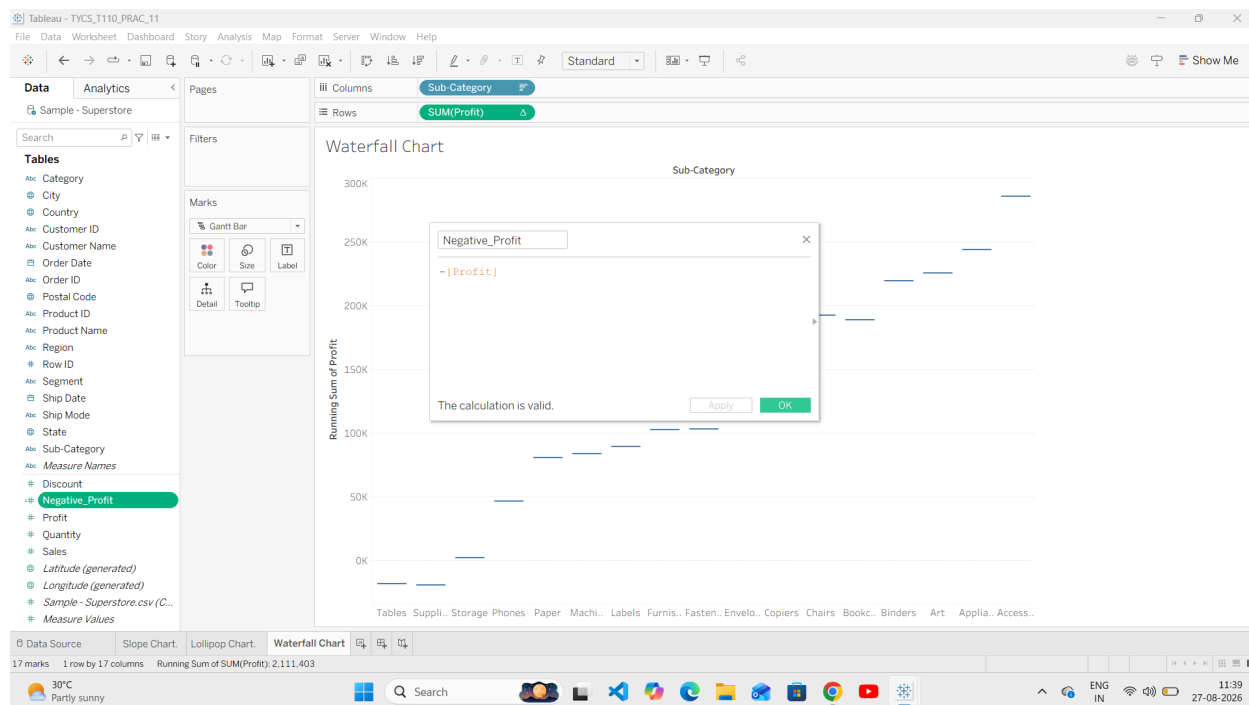

Step 3: Switch Mark Type to Gantt Bar

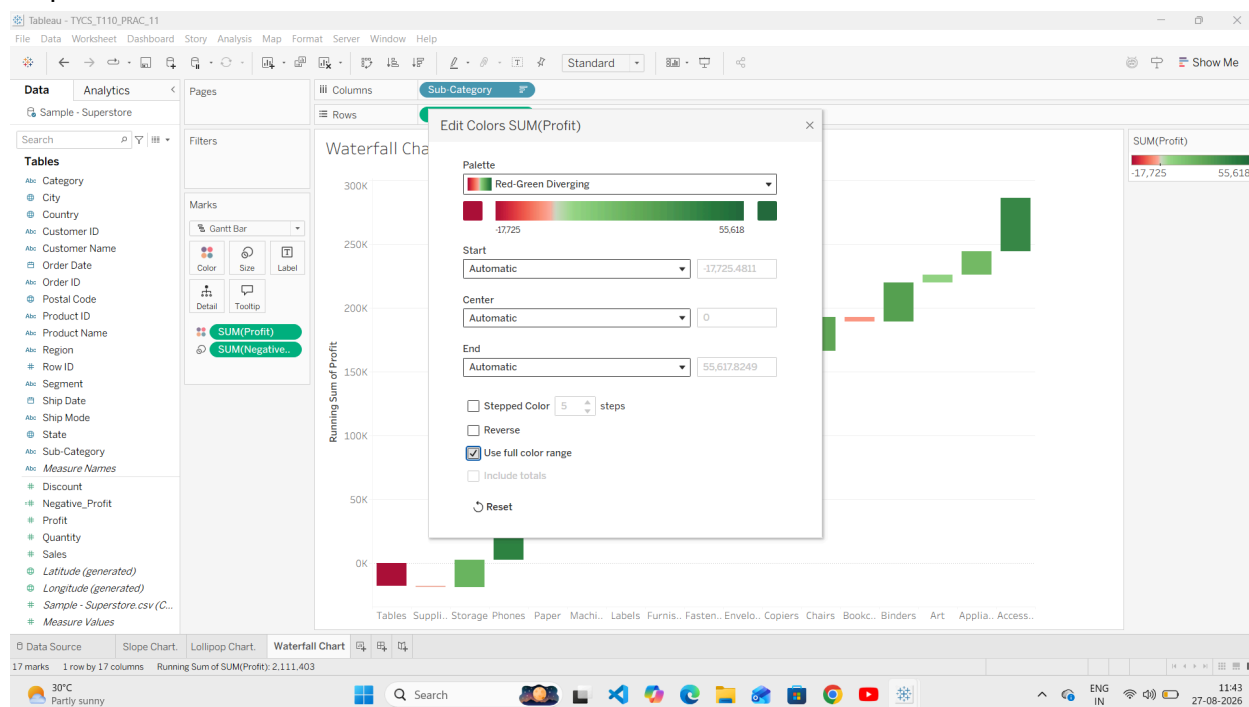

Step 4: Create the Negative Profit Sizing Calculation

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

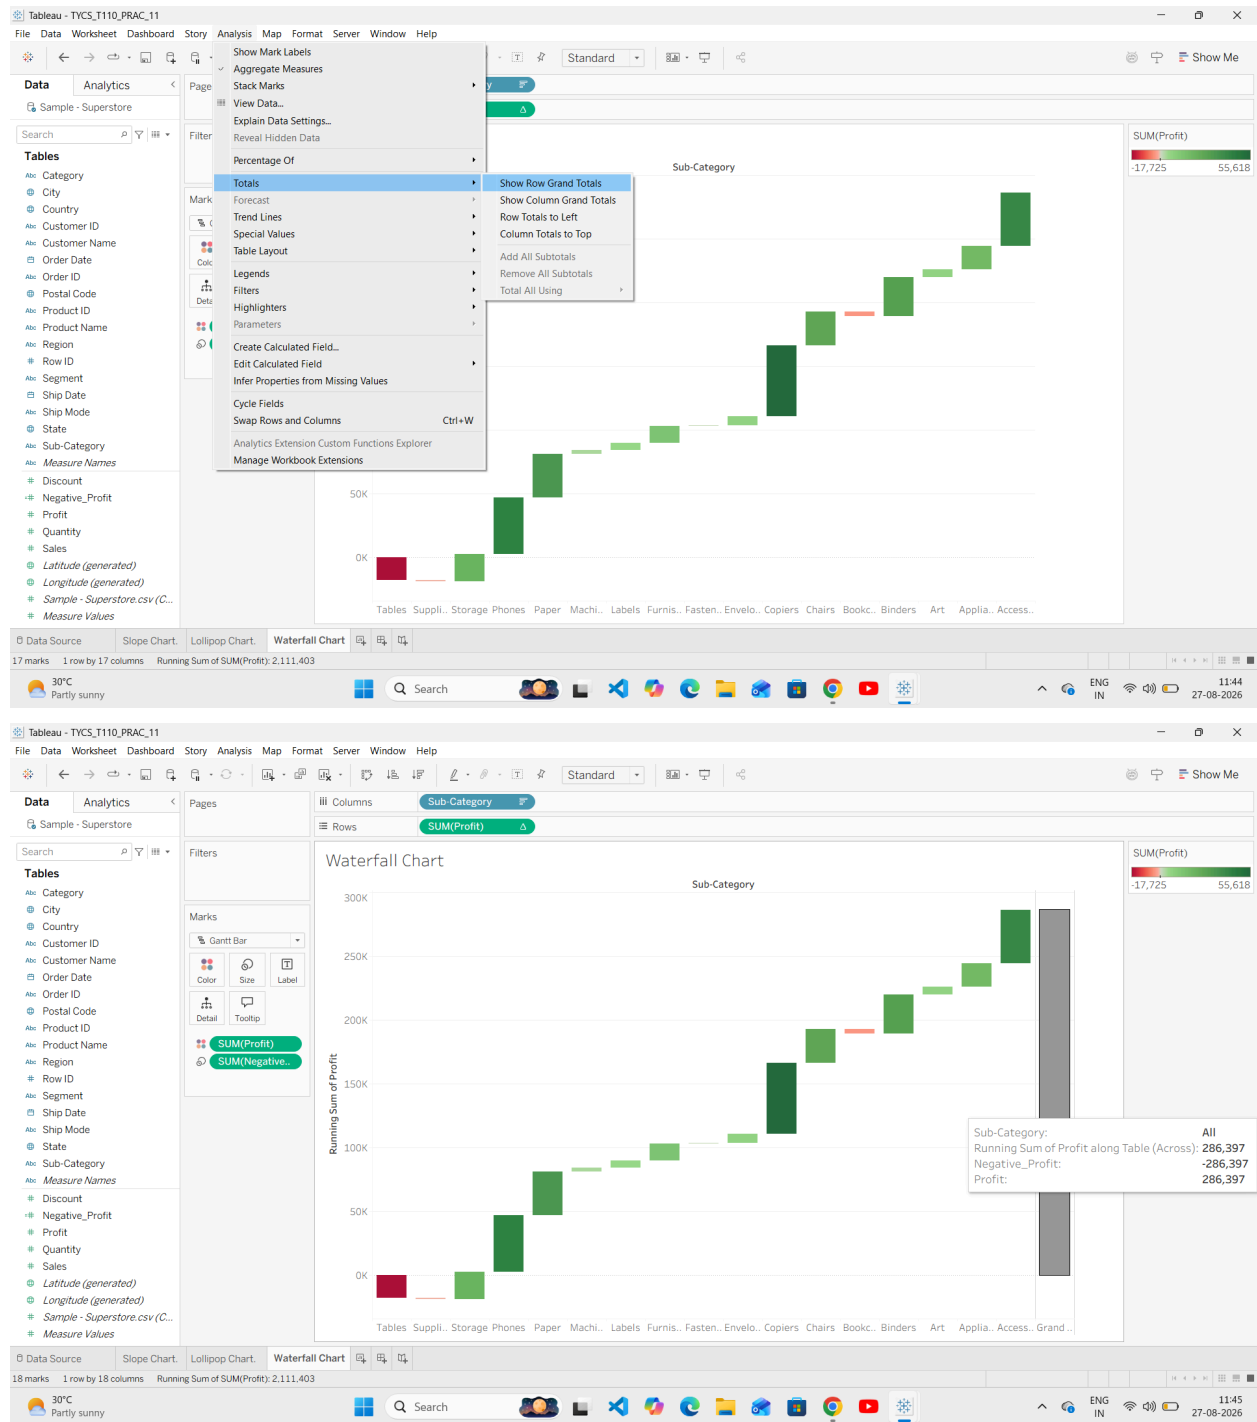

Step 5: Size and Color the Waterfall Blocks

Step 6: Add Grand Totals to Close the Waterfall

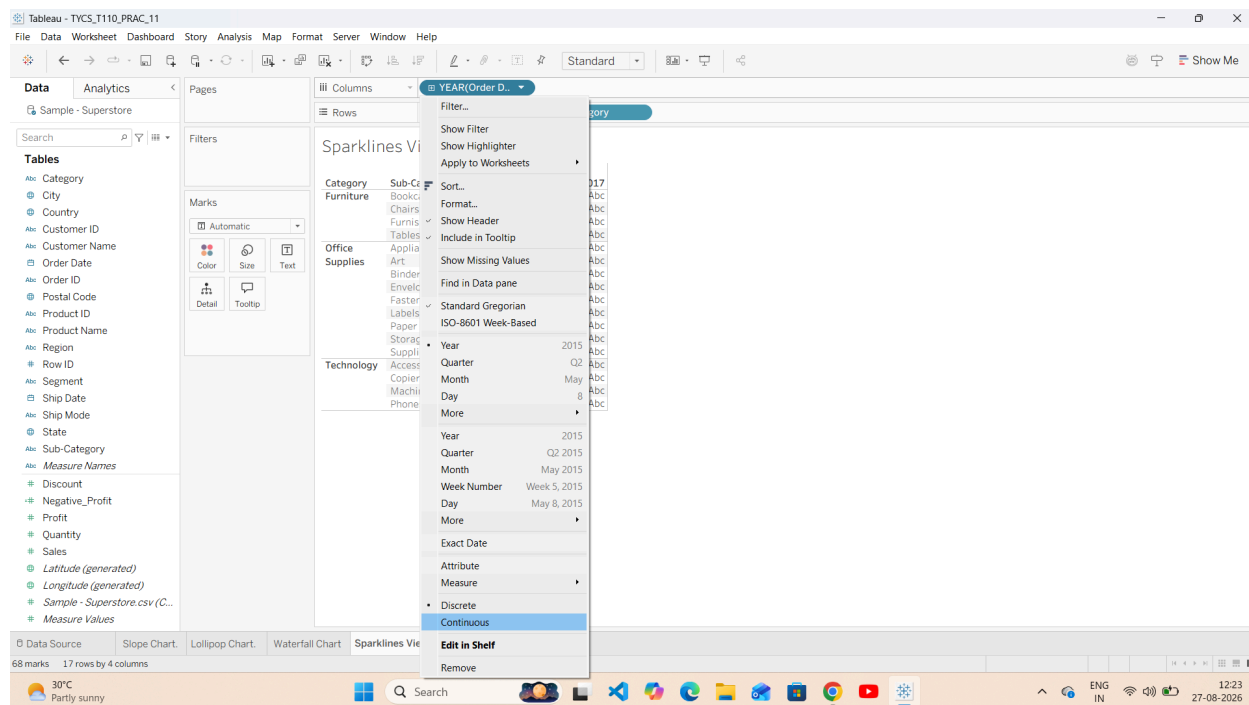

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

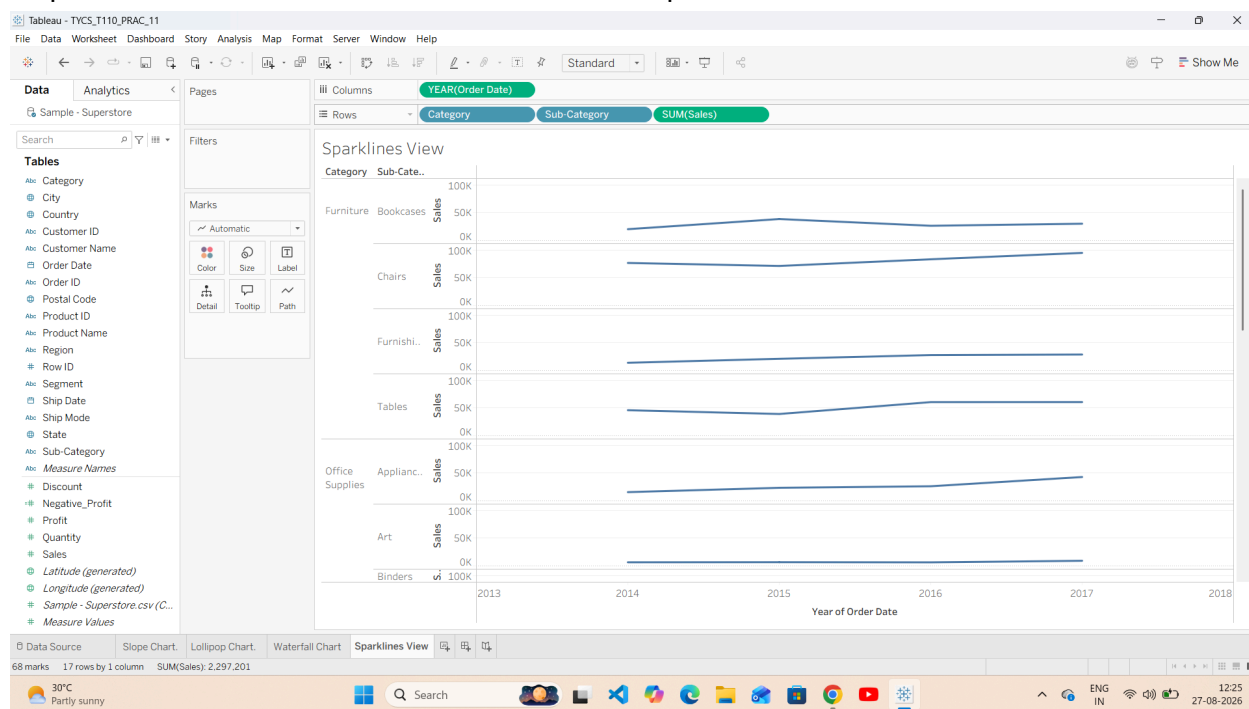

C: Build Sparklines for Trend Analysis

Step 1: Set Up the Base Worksheet and Table Dimensions

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

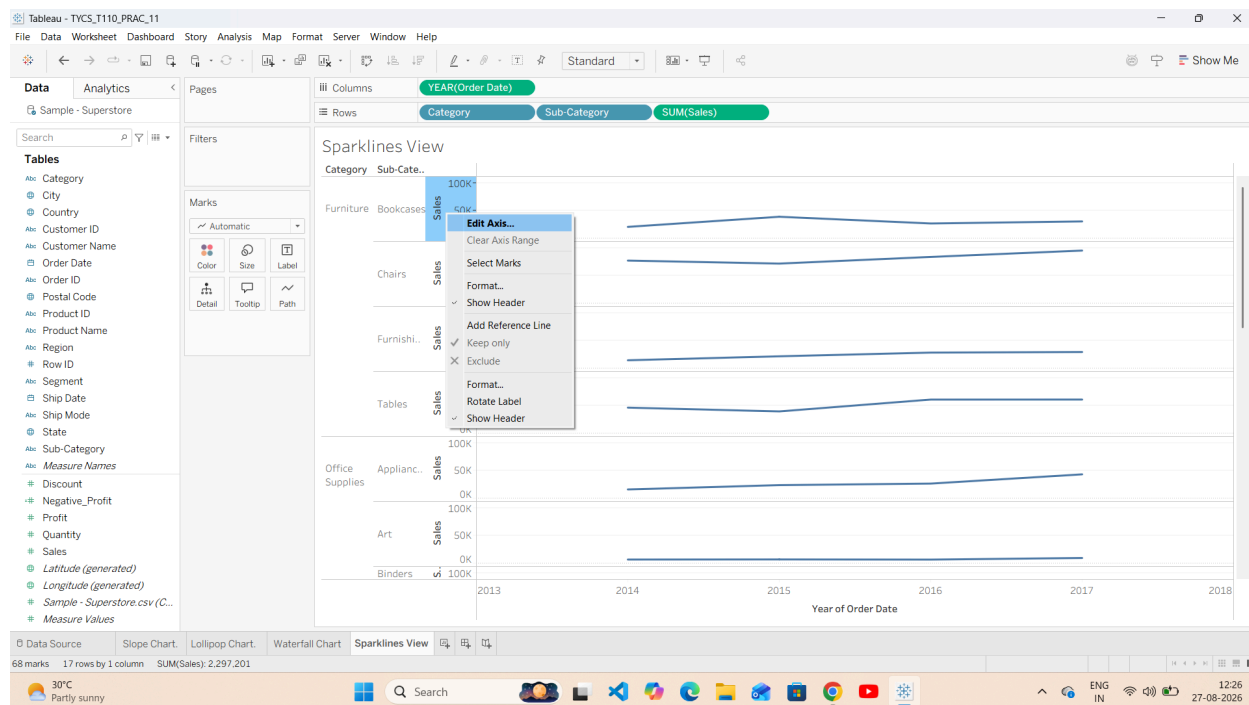

Step 2: Add Continuous Time-Series for Trend Shape

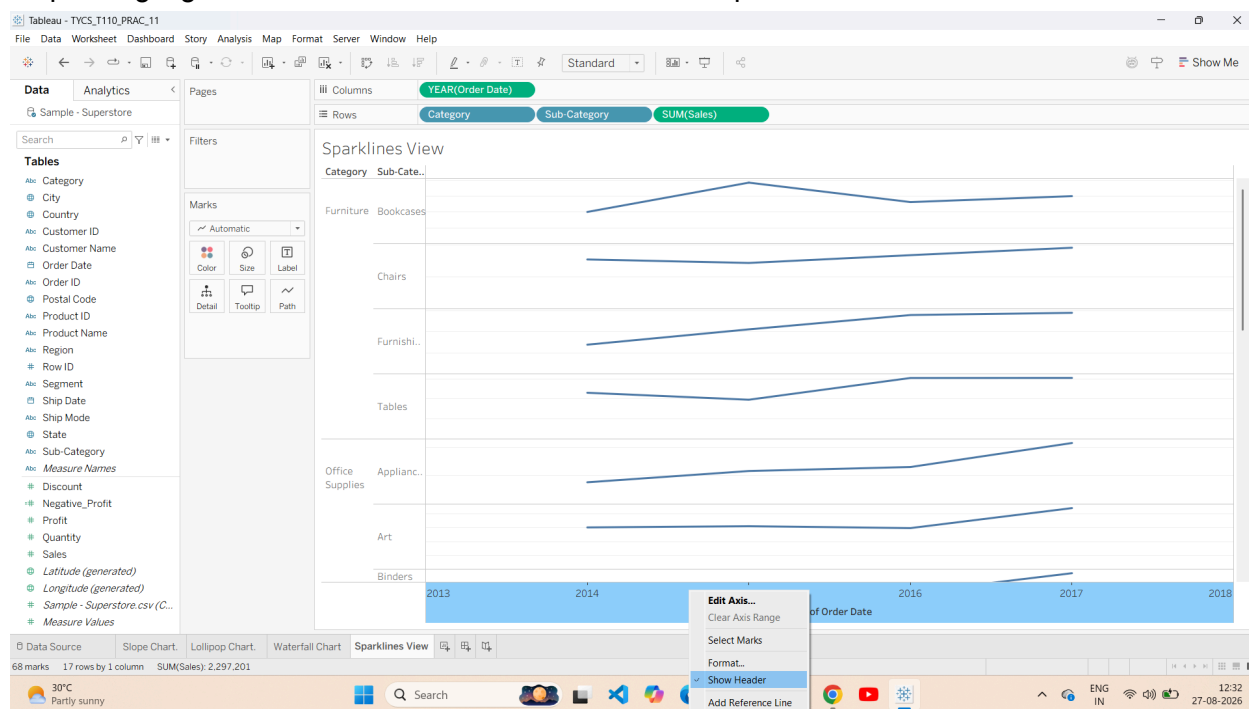

Step 3: Add Total Sales Metric Pill alongside the Sparkline

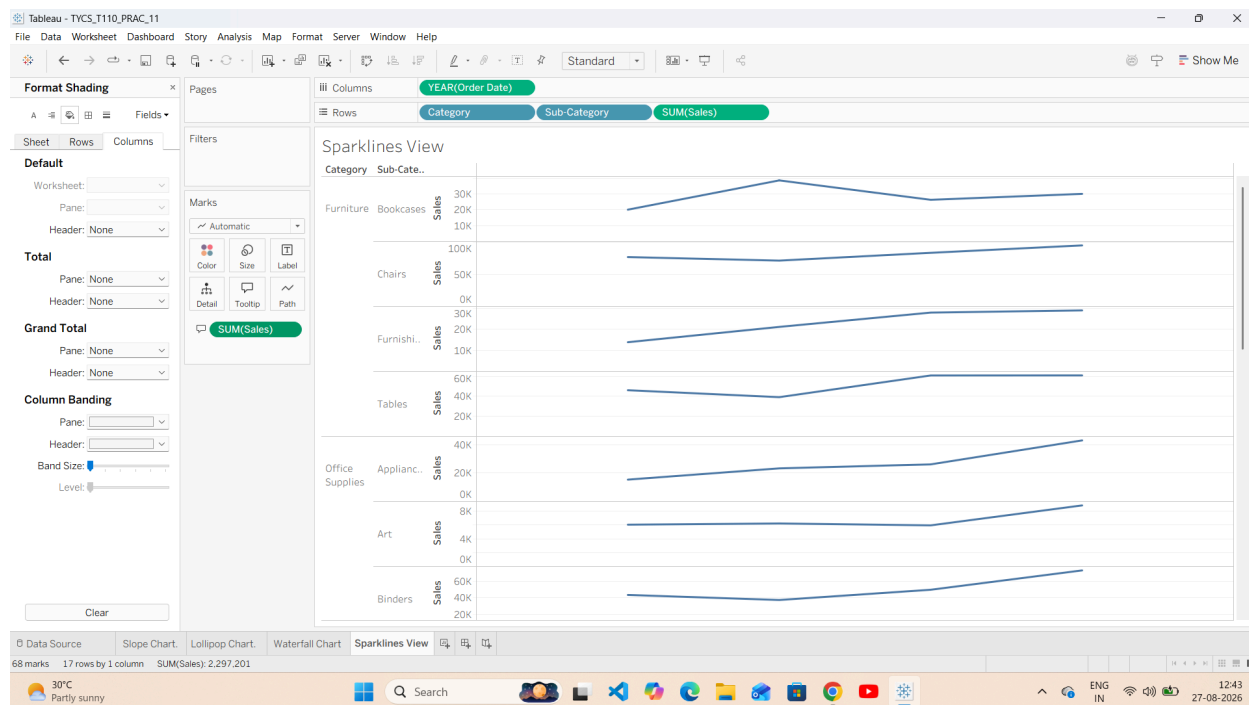

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

Step 5: Highlight Minimum and Maximum Milestone Endpoints

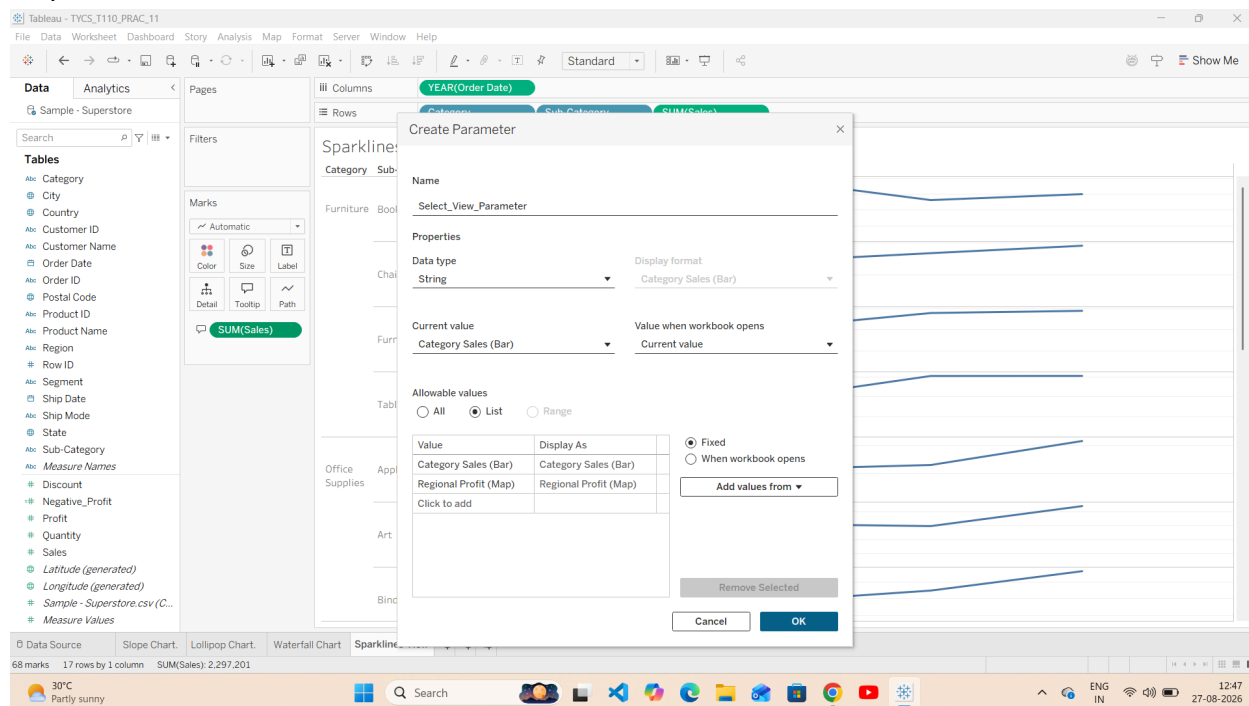

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

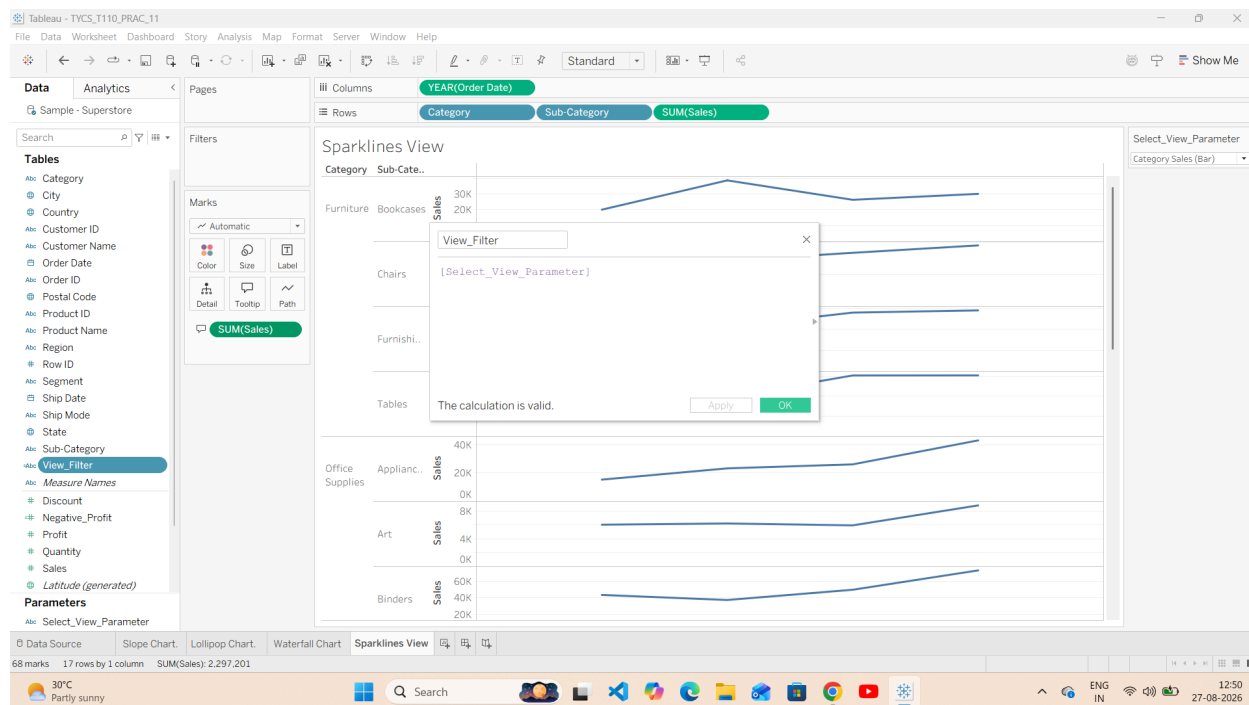

D: Implement Sheet Swapping for Dynamic Dashboards

Step 1: Create the Control Parameter

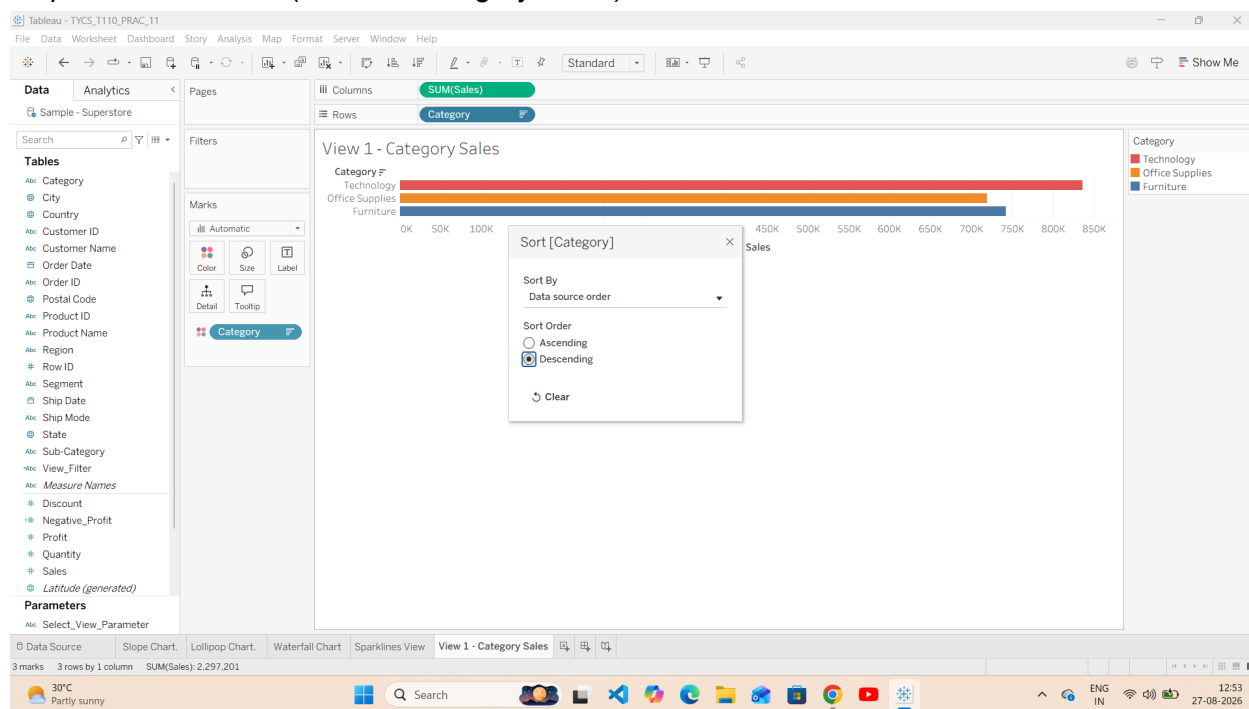

Step 2: Create the Dynamic Filter Field

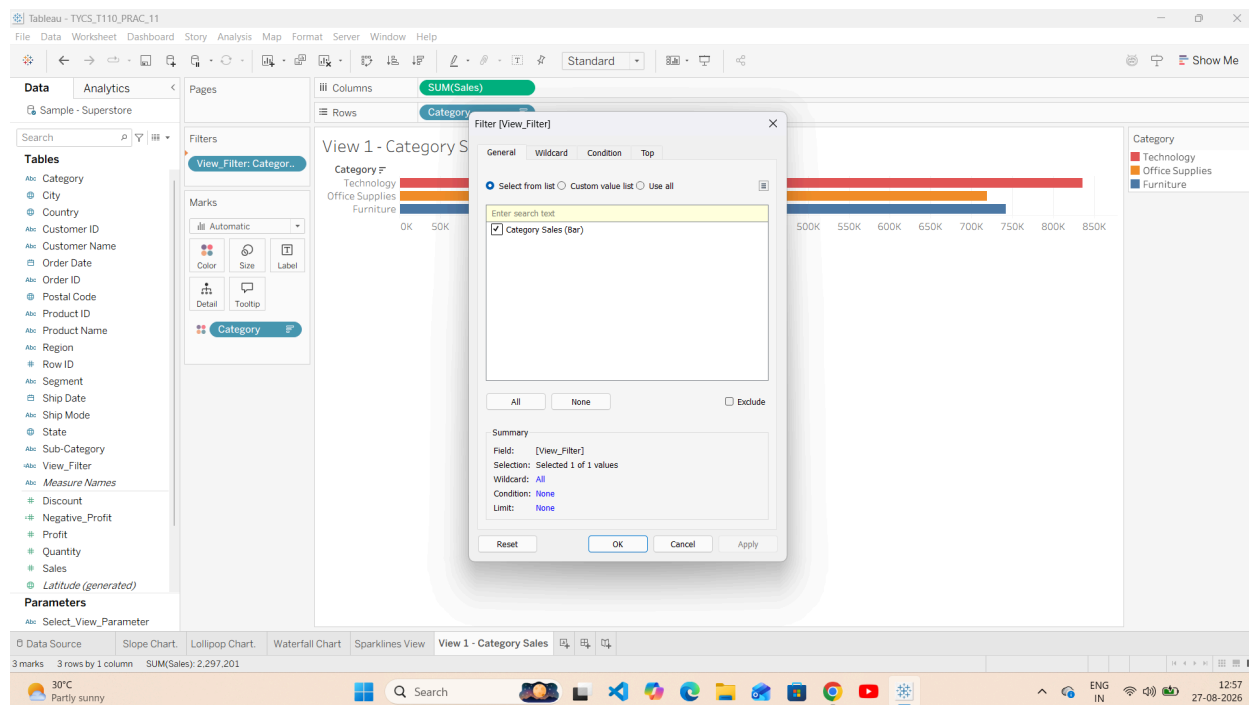

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

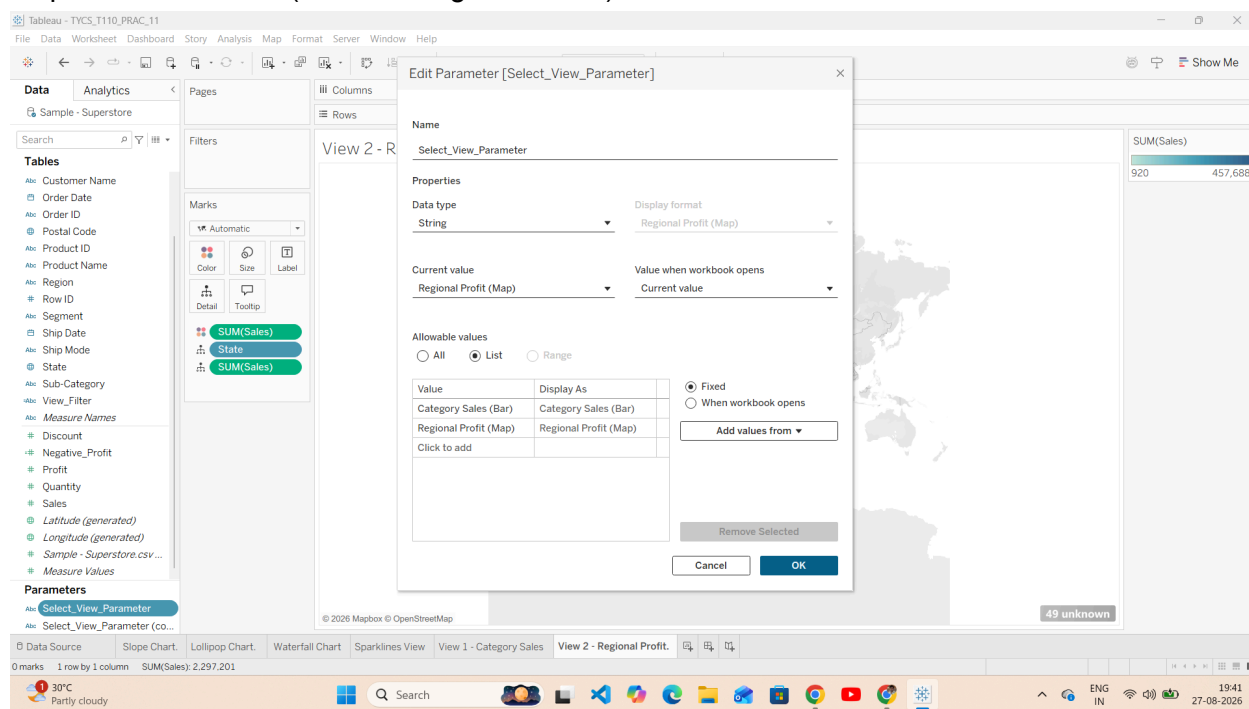

Step 3: Build Sheet 1 (View 1 - Category Sales)

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

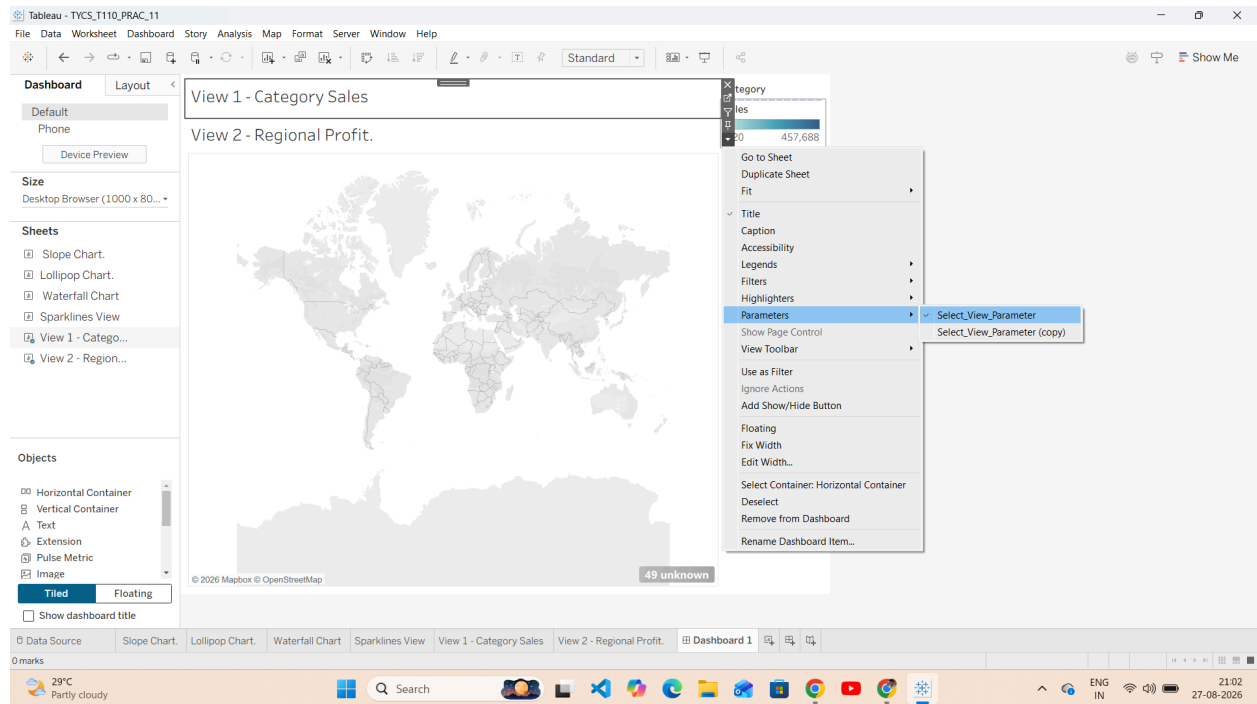

Step 4: Build Sheet 2 (View 2 - Regional Profit)

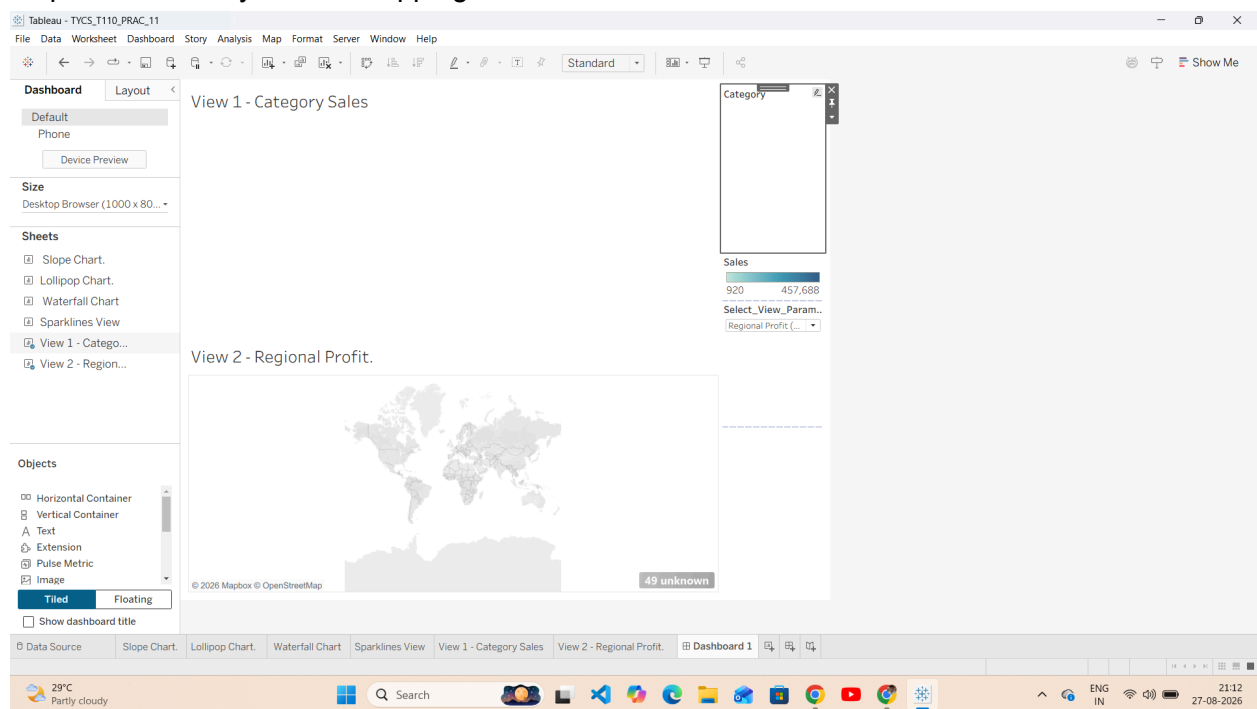

Step 5: Construct the Dynamic Swapping Dashboard

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

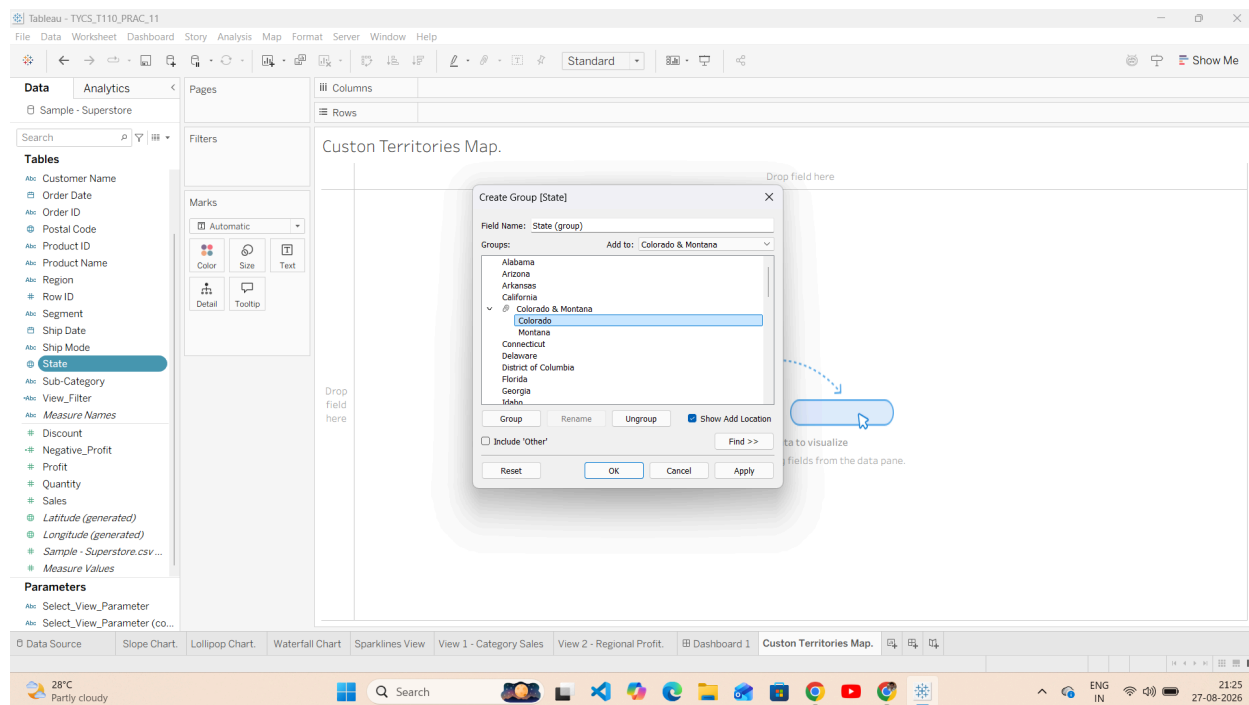

Step 6: Test the Dynamic Swapping

E: Create Custom Geographic Territories

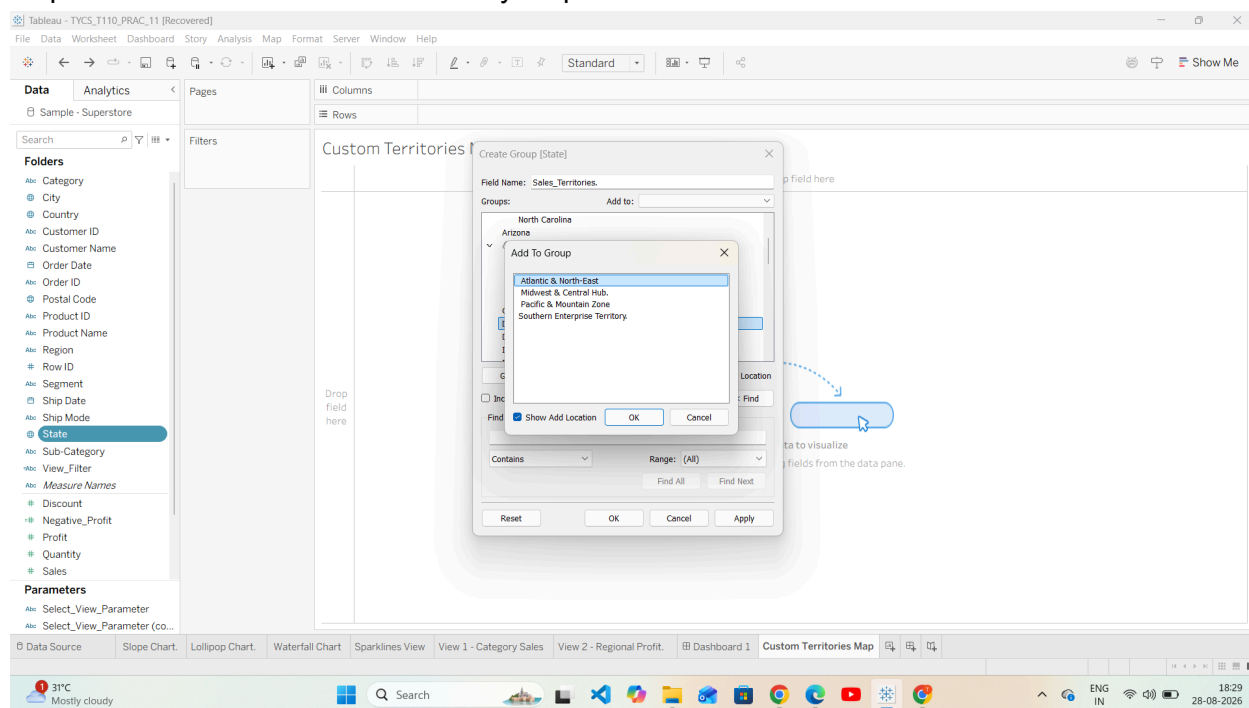

Step 1: Create a Custom State Grouping (Territories)

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

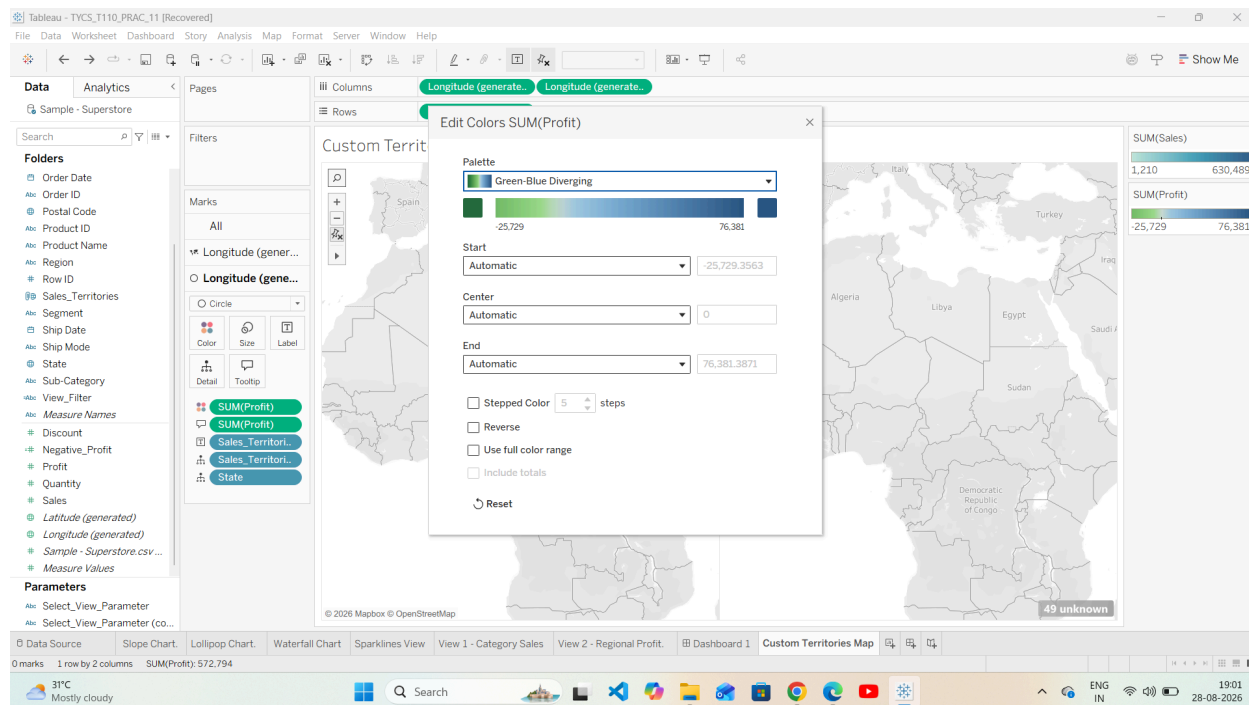

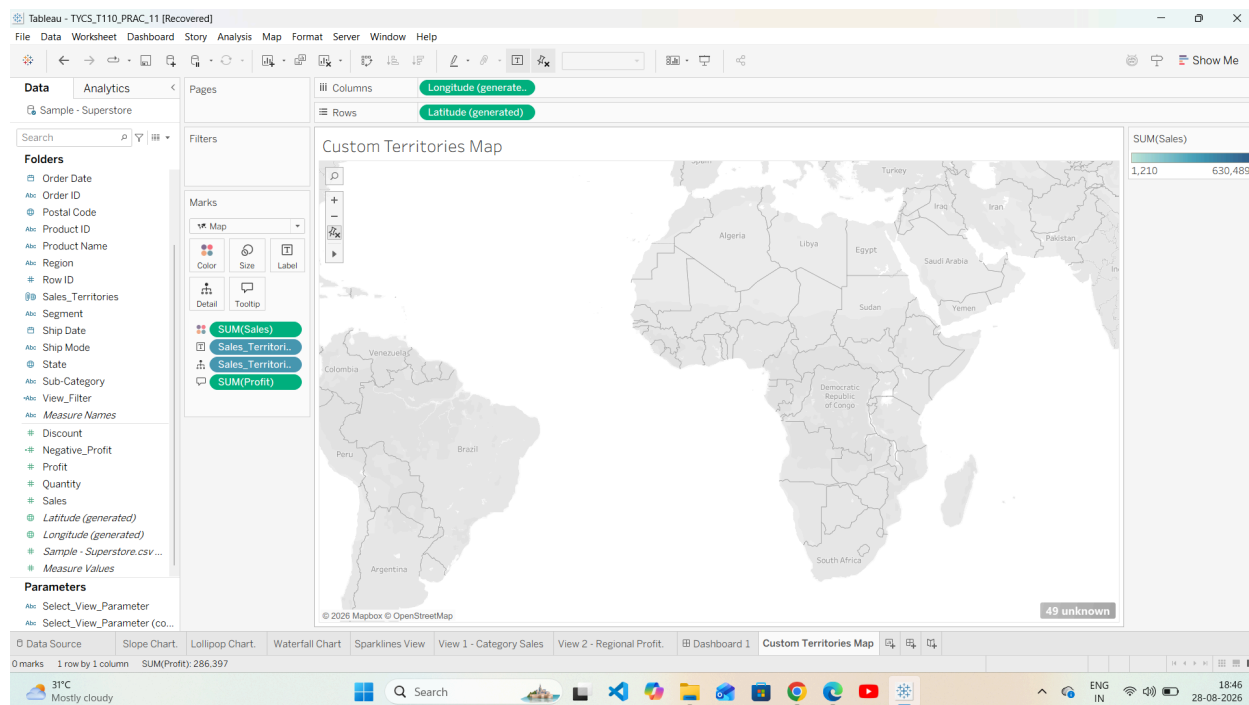

Step 2: Assign Geographic Role to the Custom Group

Step 3: Build the Consolidated Territory Map

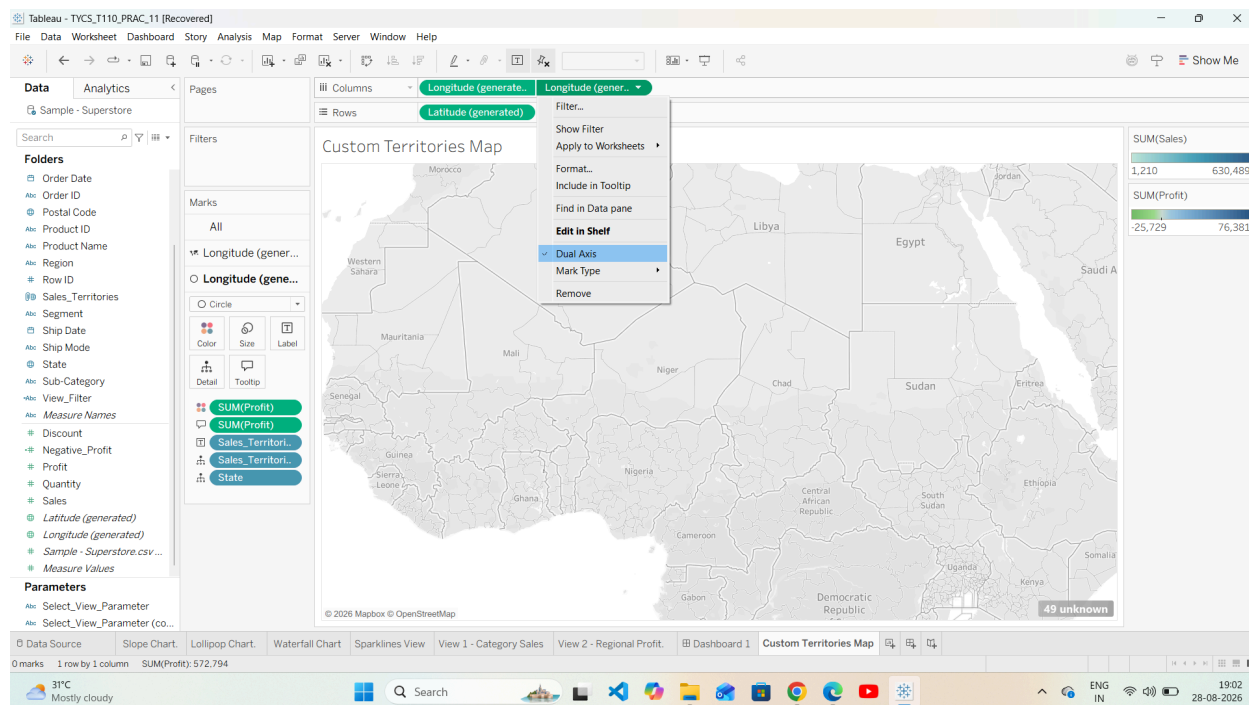

Step 4: Compare State Granularity vs. Custom Territory

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

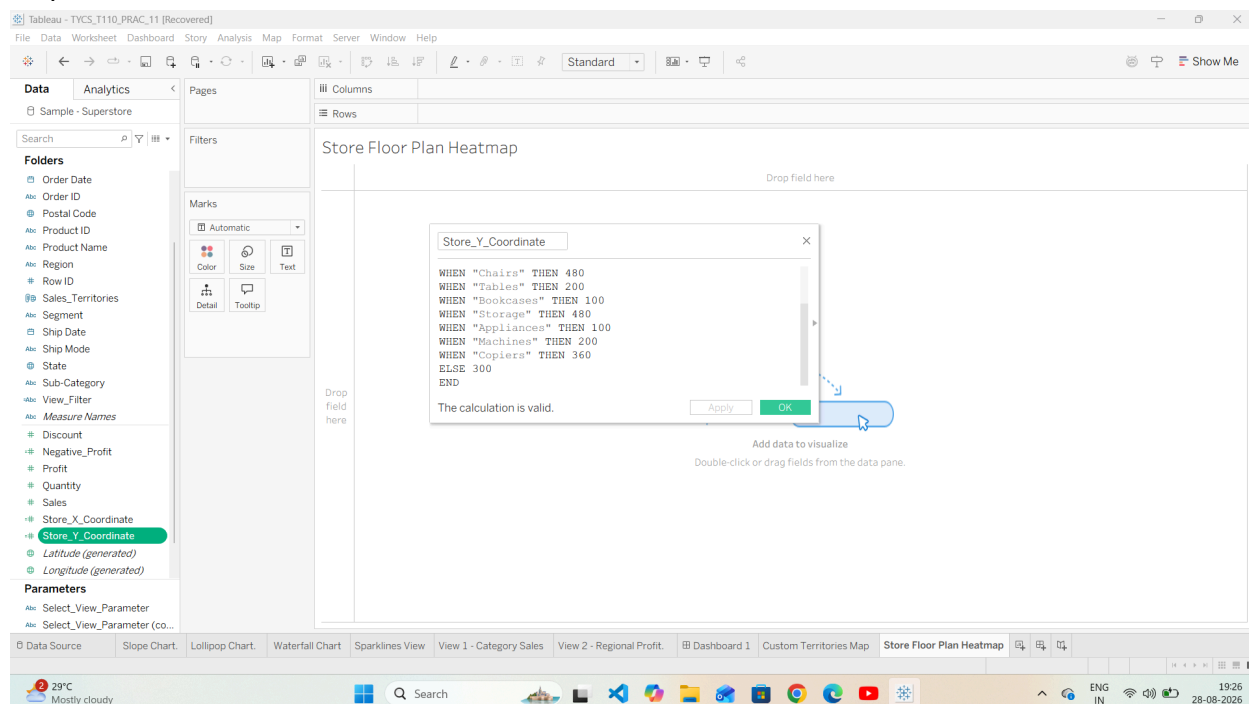

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

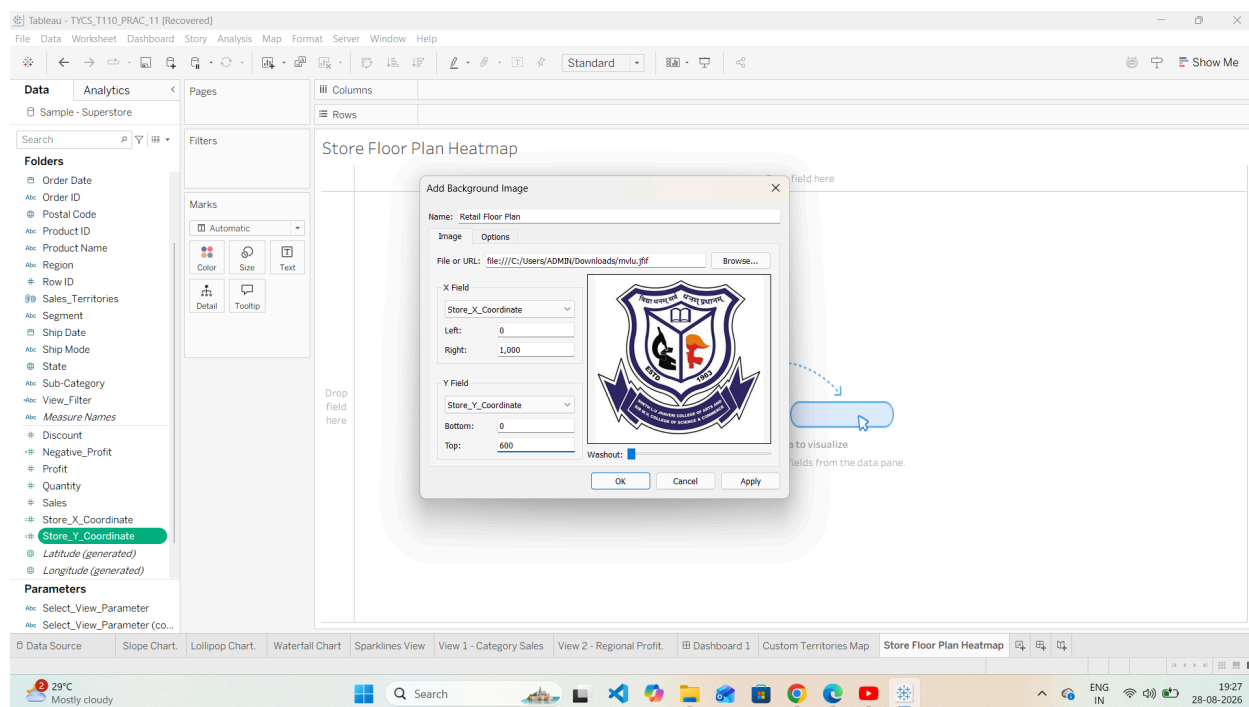

F: Use Background Images in Dashboards

Step 1: Create the Coordinate Calculated Fields

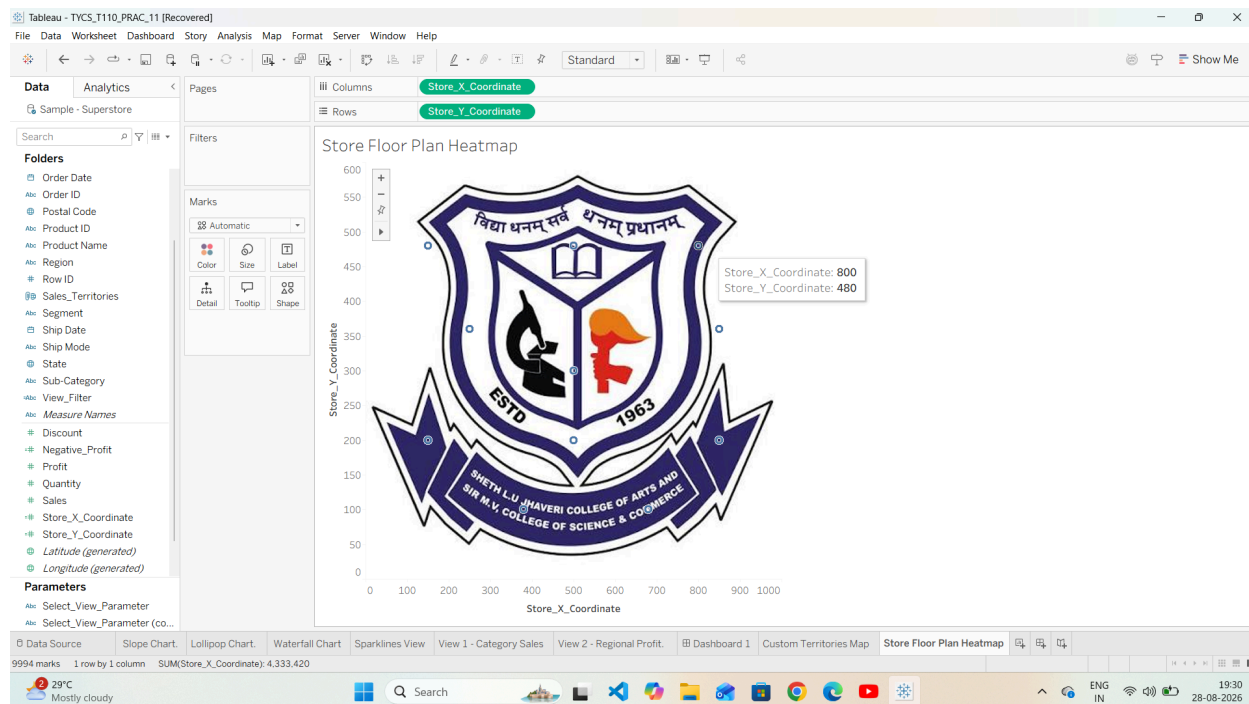

Step 2: Configure the Custom Background Image in Tableau

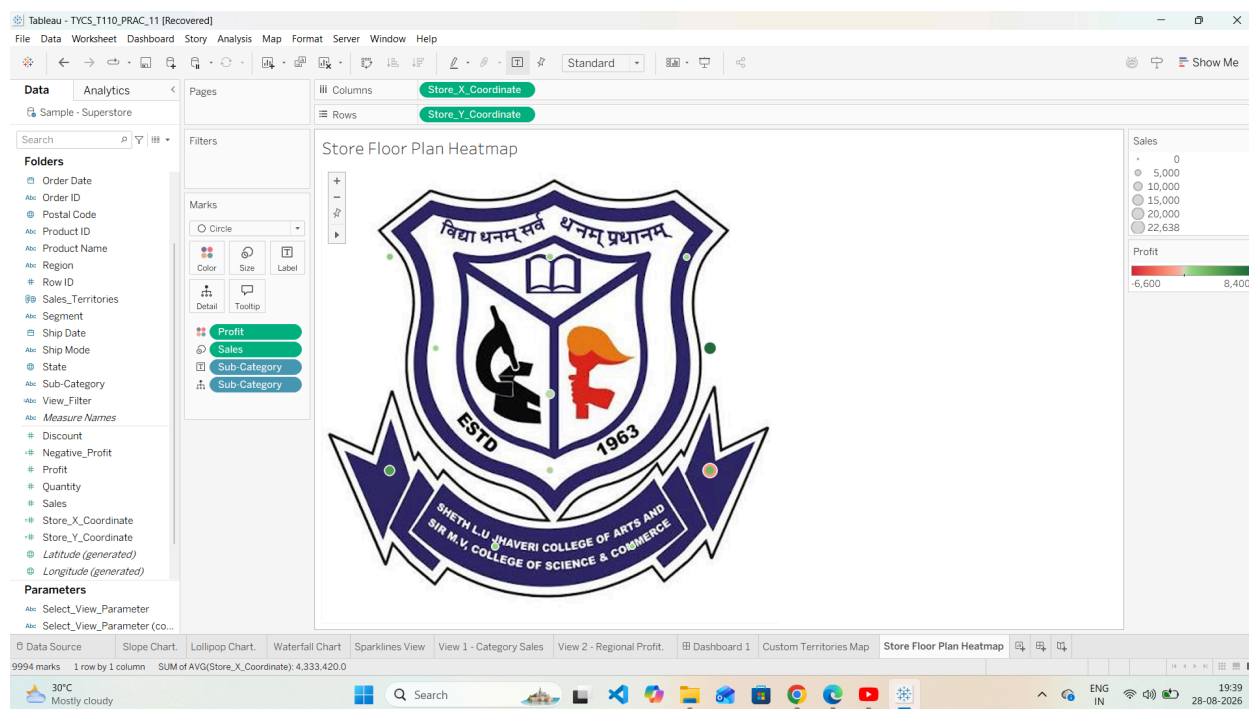

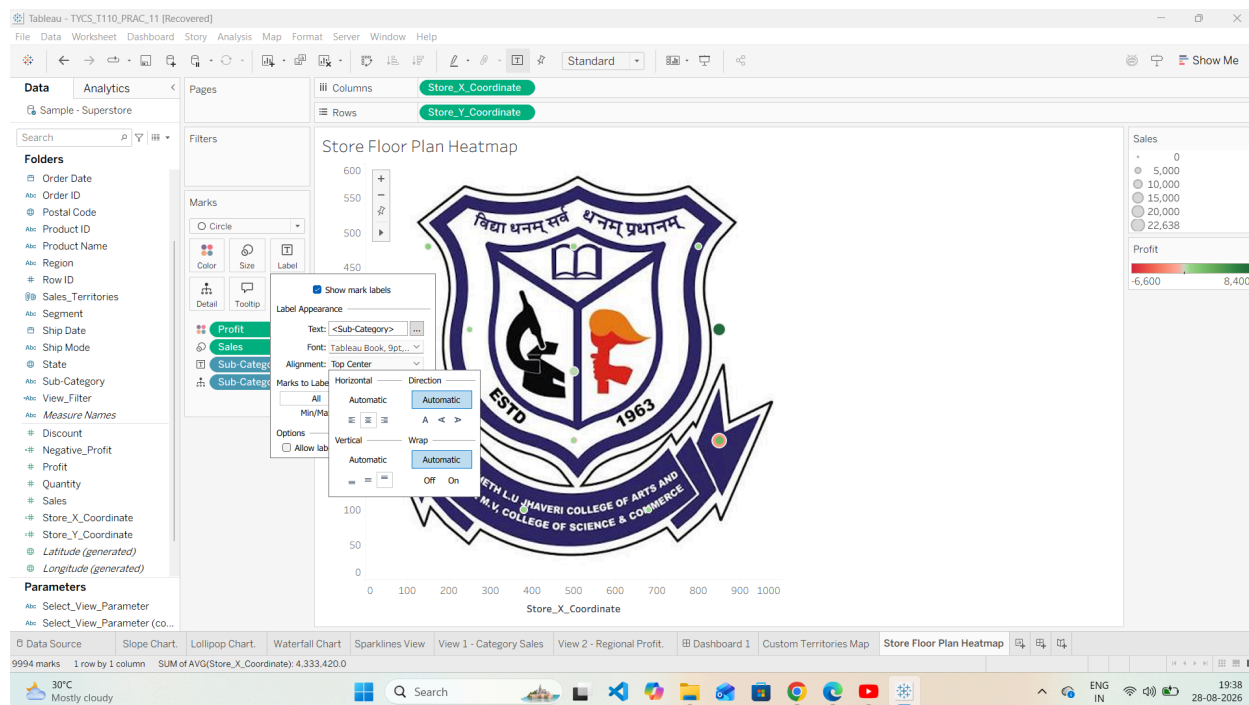

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

Step 3: Build the Floor Plan Spatial Visualization

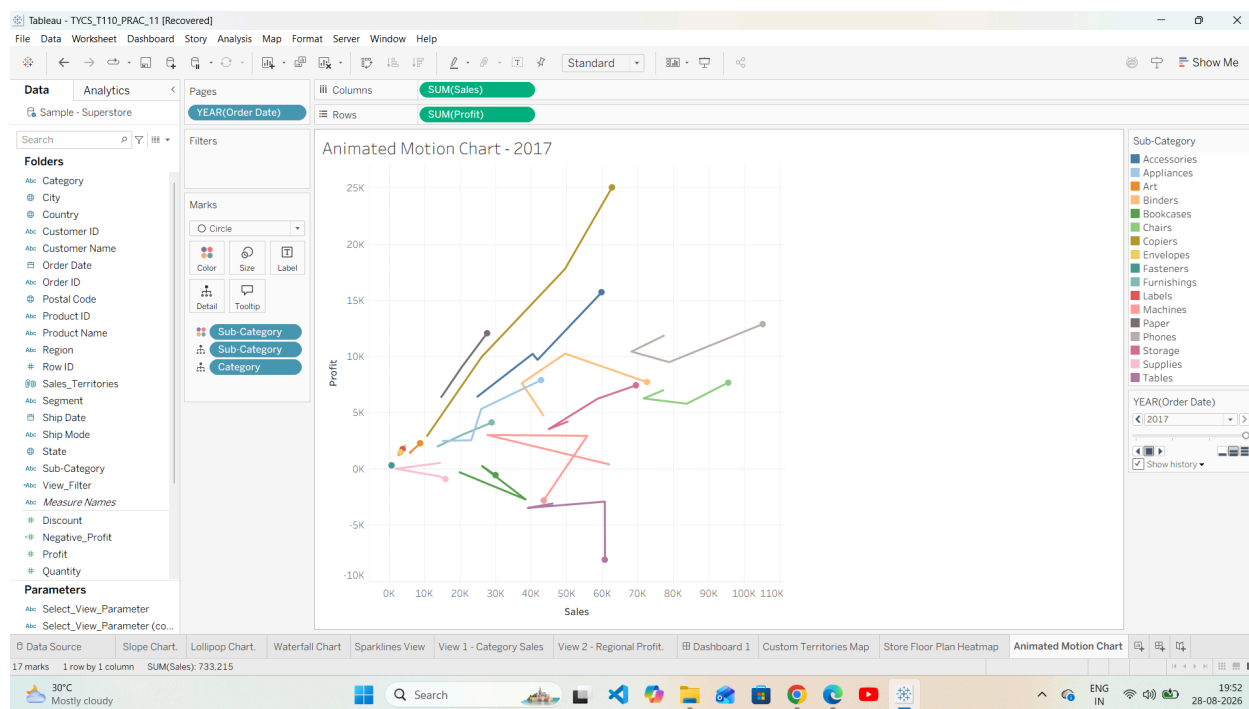

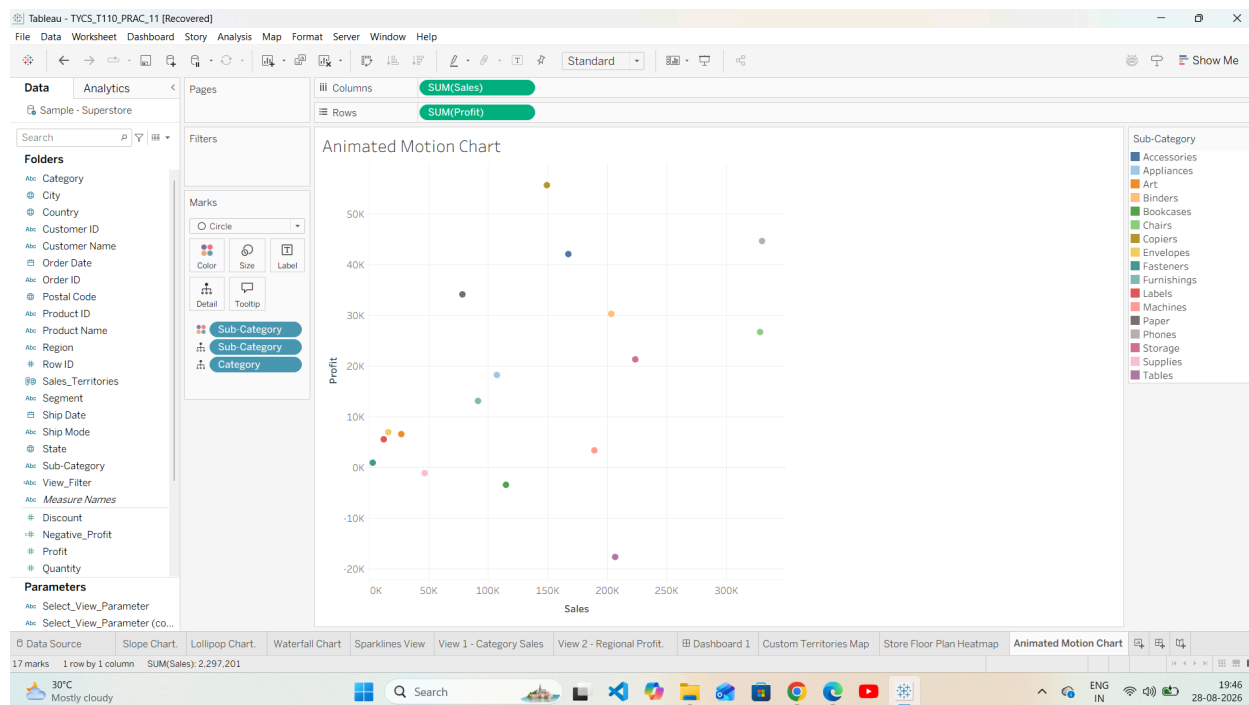

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

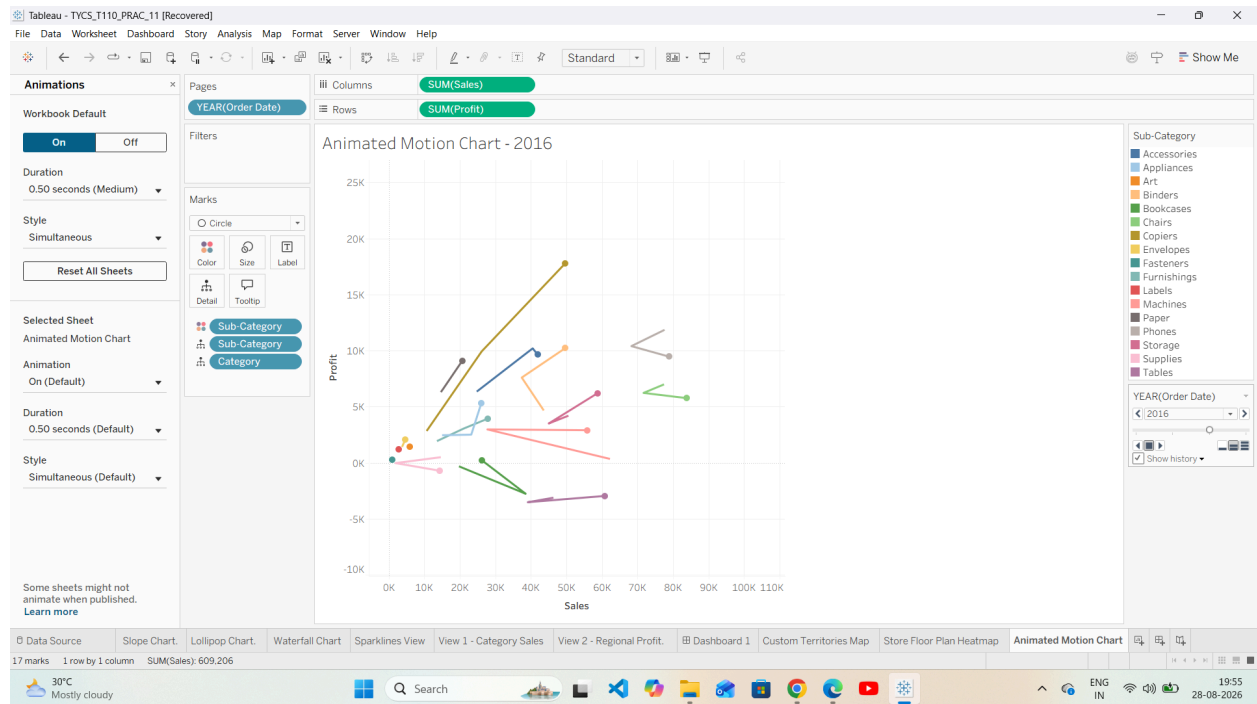

G: Apply Animation and Transparency Techniques

Task 1: Create an Animated Motion Chart (Pages Shelf)

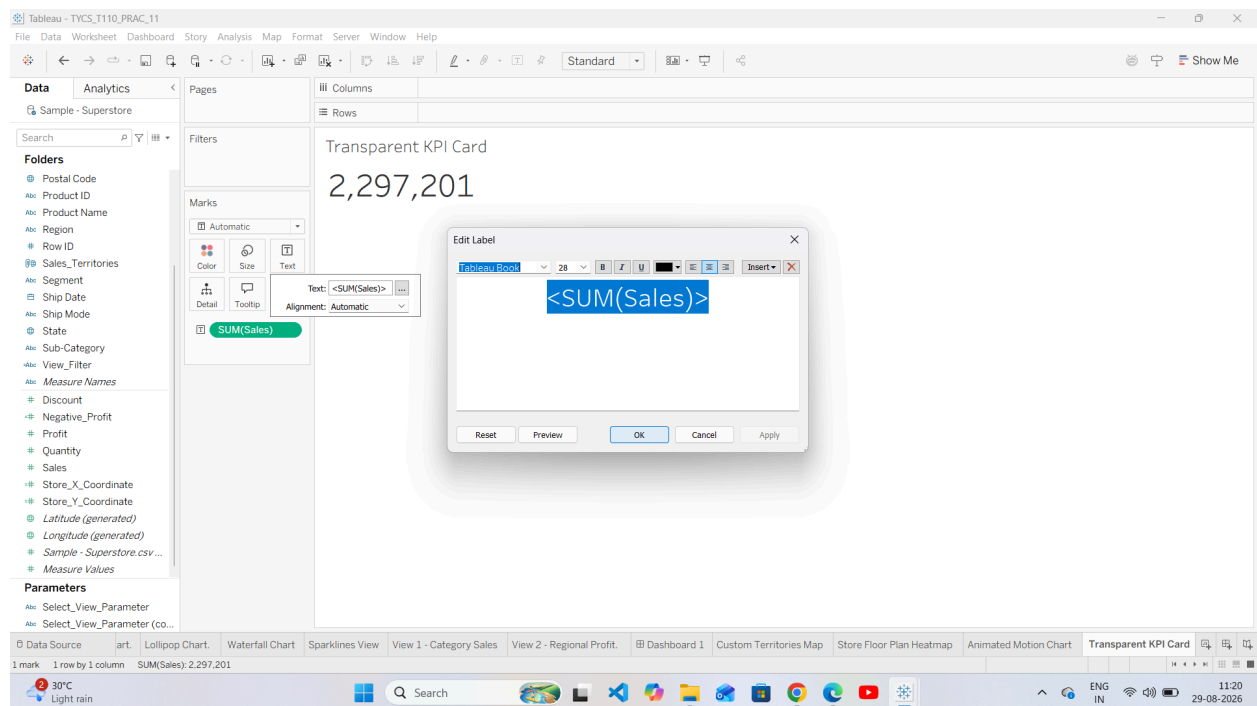

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

Task 2: Apply Sheet and Dashboard Transparency

Lesson 11: Implementing Advanced Visualization Techniques and Customizations.

The image displays two screenshots of the Tableau Desktop interface, illustrating advanced visualization techniques and customizations.

Top Screenshot: The interface shows the 'Format Shading' pane on the left. The 'Worksheet' is set to 'None'. The 'Total' pane is set to 'None'. The 'Grand Total' pane is set to 'None'. The 'Row Banding' pane is set to 'None'. The 'Column Banding' pane is set to 'None'. The 'SUM(Sales)' field is highlighted in green. The main view displays a 'Transparent KPI Card' with the value '2,297,201'.

Bottom Screenshot: The interface shows the 'Format Dashboard' pane on the left. The 'Default' is set to 'None'. The 'Dashboard' pane is set to 'None'. The 'Font' is set to 'Tableau Boo...'. The 'Shading' is set to 'None'. The 'Border' is set to 'More colors...'. The 'Worksheet' is set to 'None'. The 'Text Objects' pane is set to 'None'. The 'Font' is set to 'Tableau Boo...'. The 'Alignment' is set to 'Left'. The 'Select Color' dialog box is open, showing a color picker and a 'Pick Screen Color' button. The dialog box also displays 'Custom colors' and 'Add to Custom Colors' options.
